So They Put Them Down That "Genuine" Scotch Good Health, Mr. Baker Chapman, Arch Criminal

—By Arthur Brisbane—
(Copyright, 1925, by Star Co.)

THE LITTLE STOCKS drooped yesterday, and the Stock Exchange reminded you of the dormouse's watch at the mad hatter's tea party. Nothing seemed to please it.

One of the Wabash stocks that have bankrupted many a man solemnly declared a 5 per cent. dividend, and prices broke worse than ever.

"All right," say the big fellows, "if we can't put them up, we'll put them down," so they put them down. They know how to make money both ways. You don't; that's why you shouldn't gamble.

ARE YOU BUYING some of the "genuine Scotch" now peddled and storing it inside your mucous membrane?

Seventeen manufacturers of "Scotch" whiskey have been arrested in Germany. They had copied Scotch bottles and labels perfectly. Heaven knows what the whiskey is like.

The German government arrested them for imitating British trademarks, and interfering with British bootleg profits among the Yankees.

GEORGE F. BAKER is one of the four richest men in the world—Henry Ford, Rockefeller and Mellon being the other three. He celebrates his eighty-fifth birthday today.

To live eighty-five years is nothing. Millions do it. Turtles live four hundred years, and whales even longer.

MR. BAKER interests you, because at eighty-five he is actually doing the work of ten men.

He is the ruling power, absolute czar in dozens of the nation's biggest railroad and industrial enterprises. One little item in his daily routine, for instance, is control of the great railroad system built up by the old working Vanderbilts. To be able to do that work at eighty-five means something.

SPEECHES in the House of Commons and the House of Lords will go out "on the air" for all of Great Britain to hear by radio. The appropriate remark would be: "This solves the bedtime story problem and will put all England to sleep." The fact is that the best speeches in the English language are made in the House of Commons, where they fight things out on the floor instead of "trading" them out in committee rooms, as we do here.

THE MURDER TRIAL now absorbing the American intellect is that of Chapman, romantically described as the "arch criminal and brigand."

What would interest civilization in this case, if there were any civilization to be interested, is the history back of this criminal. He began in crime an undernized, underfed, mentally and physically starved little Irish boy. When they caught him in his first theft, they sent him to the university of crime, which is the prison.

In one penitentiary and then another he took post-graduate courses. His present notoriety is the result.

With a decent chance in life, the energy, desperate courage and resourcefulness that now frighten the police, and cause them to keep this criminal heavily chained, might have made a useful and successful man of him. The same steel can be made into a plow or a dagger.

THE FRENCH are cheerful and the English exultant over the excellent prospect of reaching an agreement on security among nations. Austen Chamberlain's speech seems to have started something in the right direction.

BUT THE FRENCH are worried about their constantly

American Woman to Sue Dennistoun

LONE WOLF SANE, ALIENIST DECLARES

Girl Identifies Bandit Chapman

"PIERCING EYES" NOTED BY TWO OF STATE WITNESSES

Hartford, March 27.—Gerald Chapman was today identified by Miss Catherine Bourne, of Steubenville, O., employed as bookkeeper at a automobile agency in that city from which a phaeton car was stolen on April 6th last.

Miss Bourne was positive Chapman was the fashionably dressed young man who called at the show room to inquire about an automobile on Saturday, the day before a car was stolen.

The prisoner, on trial as the slayer of a policeman in New Britain, stood up to give her a better view after she had picked him out from among a group of men at the council table.

Miss Bourne's employer, James H. Snyder, who recalled the visit of the well-dressed young man, could not identify Chapman. He said he did not pay any particular attention to the visitor.

Snyder testified he discovered that a Lincoln phaeton which had been sold to another customer had been stolen from the show room.

Judge Grochi, senior counsel for Chapman, objected to Snyder's testimony as irrelevant.

State Attorney Alcorn replied that

MRS. VANDERBILT, GUN READY, HUNTS INVADER

New York, March 27.—Mrs. William K. Vanderbilt, accompanied by a half dozen policemen, conducted a search of her five-story residence at Fifth avenue and Fifty-third street today after she had reported seeing the reflection of an intruder in the mirror of the dining room.

After a half hour's search police were unable to find anyone nor to discover any apparent tampering with doors or windows.

According to one of the officers, who had been summoned by a police whistle blown by a servant, Mrs. Vanderbilt carried a revolver during the search. Police said this was the third time within the past two weeks that they had been summoned to the Vanderbilt home to seek suspected intruders.

Letters threatening harm to her if she did not pay $50,000 were received last Winter by Mrs. Vanderbilt. Bern Sirro, twenty years old, later was arrested and pleaded guilty to blackmail and extortion.

A watchman keeps guard outside her residence, but Mrs. Vanderbilt feared the intruder had slipped past the guard. She and one of her daughters were in a reading room on the second floor shortly after midnight when she thought she heard noises below. She said she investigated and saw the reflection of a man in the mirror. She was positive he fled when she entered the room with a revolver.

STUDENTS CANCEL PLANS TO MARRY

"By mutual consent our marriage is all off, for we decided we are too young to become mand wife," said Howard Jerome Robison, Tufts engineering student and captain of the freshman basketball team.

Robison and Alice Cooper, nineteen years old, of New York State, a Jackson College student, filed marriage intentions two days ago in Somerville. They were to be married secretly and planned to continue with their studies.

Robison is twenty-one years old and a resident of Meriden, Ct. He is a member of the Zeta Psi fraternity.

TWO BANDITS ELUDE POLICE IN SWAMP

Two armed bandits, who escaped into Great Swamp, near Concord, after holding up and robbing a Maynard department store, eluded a heavily-armed posse of Concord police and State troopers today after the posse had held a cordon around the swamp all night.

The two desperadoes, whose identity is claimed to be known to the police through license and registration papers left in a coat found in their abandoned machine, slipped out of the swamp some time during the night and escaped. The license and registration papers bear the name of a Beachmont man.

Several shots were fired by the bandits at Corporal Callahan of the State patrol before they took refuge in Great Swamp, which is on the old Cambridge turnpike near Walden's Pond.

When Corporal Callahan came upon their automobile, the bandits

Escape Cold Dangers—Fr. John's Medicine drives off colds and coughs.—Adv.

police say, were making a getaway after robbing a Maynard department store of more than $500 in merchandise.

All through the night police patrolled the territory about the swamp and stopped all passing automobiles in the hope of blocking the escape of the fugitives.

The robbery at the department store of Samuel Lerer in Maynard occurred in broad daylight. Two men, carrying a travelling bag, entered the store while Lerer was waiting on a customer, and departed before he could turn his attention to them. After they had gone, Lerer

"I HAD TWO PEACHES PICKED"

Artist Charles Schmidt of the Boston American staff made the above impressionistic sketch of the "Lone Wolf," James C. Walters, as he bragged of his criminal deeds and described the various types of women he had robbed and maltreated. The sketch reproduces faithfully the "Lone Wolf's" sinister smile as he declared he was unrepentant and intended raiding a Museum road suite of two girls, whom he described as "two peaches."

BRAIN EXPERT FINDS WOLF ABNORMAL, BUT NOT MENTALLY SICK

By FRANK C. McLEAN

James E. Walters, the Lone Wolf, is "a classical case of constitutional inferiority," but is not insane, District Attorney Thomas C. O'Brien was informed today.

The statement was made to the district attorney by Dr. A. Warren Stearns, one of the alienists appointed to examine the "Boudoir Bandit."

Dr. Stearns said that as far as he could determine in the short examination he has made of Walters, he is abnormal mentally, but of the criminal type, rather than a mentally sick man.

He asked for and was granted another week in behalf of the alienists, in order that they may complete their examination.

District Attorney O'Brien announced that he would request the court to send the "Wolf" to prison for life.

HIS COUNSEL ON HAND.

Peter C. Borre, counsel for Walters, was in court today waiting for the case to be called, when he was informed of the additional delay and left.

The Wolf himself when questioned by court attaches, refused to talk.

"If there is anything you want to know," he said, "consult the newspapers. They know all about it."

Meantime, Borre, counsel for Walters, announced he would oppose any move to hurry the trial of the prisoner. He intends to see, he says, that the alienists will have ample opportunity to send to other cities for the man's record in order to make an intelligent report on the mental condition.

"The only thing I am interested in now," Borre said, "is the sanity of my client and I certainly intend to take every step toward their having sufficient time for a thorough examination and observation of the man."

"The Wolf," the district attorney declared, "is nothing short of being a human fiend. I am going to request the court to impose the maximum sentence, which, in this State, would mean a life term for him. It is not as a punishment that I will make this request of the court, but as a protection to the community."

"Walters, according to information reaching my office, has talked for hours with examining alienists. He has related many stories, and, whether true or not, I intend to check up on them. I will, in fact, endeavor to reveal the history of his entire past life.

"Fragmentary reports concerning the doctors' examinations as thus far conducted, indicate to me that Walters is sane. He is, however, what I term a constitutional inferior. A physician might say that he is a man of abnormal personality.

"The Wolf is identically the type of numerous criminals with whom I

U. S. WOMAN TO ACCUSE DENNISTOUN

Paris, March 27.—An unexpected aftermath and dramatic echo of the Dennistoun love suit in London was heard in Paris today when Dudley Field Malone, the American lawyer, told International News Service he was going to London to sue Colonel Ian Dennistoun for breach of promise in the name of an American woman.

No. Adams Man Seeks Share in $130,000,000

North Adams, Mar. 27.—Carl H. Bogardus, a railroad foreman of No. 28 Dover street, is one of 304 who hope to share in an estate of $130,000-000 as descendants of King William the Great of Holland.

Bogardus, who claims he is a direct descendant of the king, has left for Troy, N. Y., to consult with an attorney concerning the litigation. The heirs claim the property due them in New York City alone is valued at $125,000,000.

SCHOOL IS BLOWN UP; FEAR JANITOR KILLED

Pittsburgh, March 27.—An explosion today wrecked the public school building at Belleveale, a suburb. Jacob Jacobs, janitor, was reported missing, and police and firemen are searching the ruins in the belief that he met death in the blast. Officers believe the explosion was not accidental and a reward of $1,000 has been offered for information leading to the arrest of those responsible.

BATH OPERA HOUSE BURNS; LOSS $25,000

Bath, Me., March 27.—The Bath Opera House, the city's largest theatre, was considerably damaged today by a fire which started in the north balcony shortly after midnight. All the balconies and the upper portion of the main auditorium were destroyed, the damage being estimated at $25,000.

A patrolman on his rounds discovered the fire when the flames burst through the roof. It is supposed it was started by a cigar or cigarette, carelessly discarded by one of last night's audience.

The theatre is owned by the Maine & New Hampshire Theatres Company, and it will be rebuilt immediately, officials of the company said today.

MERCURY GOES TO 72

TODAY'S TEMPERATURES.

1 a. m.	54

9 a. m.	60
10 a. m.	66
11 a. m.	67
12 m.	69
1 p. m.	72

Jumping from a mark of 55 at 7 o'clock today, the mercury shot up to 72 at 1 o'clock, within two degrees of the hottest March 27 on record.

That was in 1874, and today's temperature bids fair to outdo that mark before night.

The hotest March day on record was March 21, 1921, when the thermometer registered 85.

The spell of Summer weather is not scheduled to last, for, according to the weather man, thunder showers tonight will be followed by lower temperatures. No frosts are looked for but it was stated it will be much cooler, with fair weather tomorrow.

U. S. JURY INDICTS SENATOR WHEELER

Washington, March 27.—Senator Burton K. Wheeler of Montana, Gordon Campbell and Edwin S. Booth were indicted here today by a Federal Grand Jury on conspiracy charges.

Wheeler ran for Vice-President on the La Follette ticket. Campbell is an oil land operator in Montana. Booth is a former solicitor of the Interior Department.

The indictment is the second returned against Wheeler and Campbell. They were indicted in Montana on charges that Mr. Wheeler, while Senator, improperly represented Campbell before a government department.

The new indictments are based on charges relating to the securing of oil land permits in Montana and relate to transactions alleged to have taken place while Booth was in the Interior Department.

INFORMER GETS SIX MONTHS, FINED $100

Harry E. Rakes of Somerville, informer for the Watch and Ward Society, was sentenced to six months in the House of Correction, and fined $100 today in Middlesex Superior Court by Judge Walsh.

Yesterday Rakes was found guilty by a jury on eight indictment charges of attempting to bribe, bribery and giving a bribe to Chief of Police William H. Finn of Marlboro.

J. Frank Chase, leader of the Watch and Ward Society, testified for his informer during the trial, and subsequently was tossed out of Assistant District Attorney Burbank's office.

Following sentence today, Judge Walsh granted a stay of executing, pending a decision of the Supreme Court on exceptions that have been filed.

'WOLF' ABNORMAL OF MIND, BUT CRIMINAL, SAYS ALIENIST

DR. A. WARREN STEARNS FINDS THAT BACK BAY TERRORIZER IS NOT MENTALLY SICK

Continued from First Page.

have come in contact during my twelve years' service with the penal institutions department.

"A parallel case, I should say, was that of Albert Bartlett who shot and killed a man in a drug store in Meeting House Hill section about two years ago. Alienists examining Bartlett, tried to classify the difference between sanity and insanity.

"As I recollect, doctors at that time said that there is a specific area between sanity and insanity, a sort of mental 'no-man's land.'

"I believe that Walters belongs to that class, but nevertheless, knows the difference between right and wrong.

KNEW OF CRIMES.

"He knew that he was committing a crime when he forced those poor innocent women to disrobe before him and today he chuckles that he derived amusement out of it. Further evidence that he is not entirely without intellect and knew he was committing wrongs, is evidenced in the fact that before arrest he made preparations for hiring as counsel to represent him Peter C. Borre.

"Jesse Pomeroy, Jane Toppan and Harry K. Thaw, were each of the same general type. But, more violent, of course.

"I believe that the case of Walters is an institutional problem. My only interest, however, is whether the man is sane or insane. The courts shall select his place for incarceration.

"The Wolf, of course, might well be committed to the State prison and then transferred, if necessary, to one of the institutions where mental derelicts are sent.

"The problem of dealing with him, to my way of thinking, can only be answered by imposing a life sentence.

"Something must be done in the case of this confessed marauder. The situation caused by his activities had become most alarming. In the time that he operated I received more than a score of letters from women of the Back Bay district, who said that they dreaded to walk the streets for fear of being attacked.

Great credit belongs to the police. Inspectors Dorsey and Augusta were particularly active during the campaign, were untiring in their efforts to get the man, and are to be complimented.

"Also is this true in the case of Inspector Claflin and the policemen who captured him. All in all it was the work of an energetic police department. And the public, I am sure, cannot help but appreciate their work.

CIVILIAN AIDS POLICE.

"But then again, there is a civilian here, who has somehow escaped the limelight. I'll not make known his name, but will tell you all about him.

"The civilian is a man who did service with Uncle Sam and there by became acquainted with Walters. It was he who furnished one of the earliest and deadliest clues for the police to work upon.

"Mr. Soldier, we'll call him, and the Lone Wolf met in the South End. Walters subsequently took the former man to his rooms. There, pointing to valuables, guns and money, the Wolf made the remark, 'Do you see that. It brings me in $75 a day.'

"That one incident stayed in the mind of that ex-soldier. He lost but little time in telling it to the police. And it proved instrumental in bringing about the Wolf's capture.

"Since that time, it might be interesting to know, that same ex-soldier has been on the payroll of the country, and working out of my office. He scoured dens and dives for weeks, in an attempt to once more gain sight of the Lone Wolf. No, I simply can't tell you his name."

Much of the loot found in the room occupied by Walters at No. 5 Wendell street, South Boston, and alleged to have been stolen by him from apartments during his nocturnal visits, has been identified at police headquarters by the owners.

Five persons, all residents of the Back Bay, identified clothing and jewelry as their property, although none of these had seen or been molested by the "lone wolf," the thefts having occurred during their absence.

WOMEN GET POLICE.

Miss Helen Dearborn, forty-five, and Mrs Peggy Blanchard, who occupy a suite at No 1651 Commonwealth avenue, Allston, identified clothing and jewelry taken from their apartment on the night of March 4. The former proved ownership of a fawn coat, cameo ring with two diamonds, a small diamond ring and two satin dresses. Mrs. Blanchard identified a watch and handbag.

Edward W. Thornton, living in the same building, identified a black club-bag as having been stolen from his apartment the same night. Miss Dearborn and Mrs. Blanchard said they were away from their apartment from 7:30 to 11:30 o'clock and on their return heard someone moving about. Frightened, they ran out and called a policeman, who returned with them and searched the apartment. The intruder had made his escape in the meantime, but the stolen articles were missed.

Mrs. Edmund B. Stultz, thirty, of No. 69A Strathmore road, Brighton, and Mrs. Catherine M. Schmidt, occupying an apartment in the same house, also called at headquarters and identified part of the loot. The former recognized two revolvers as being the property of her husband, as well as a watch belonging to him and a woman's wrist watch, four gold shirt studs and two fraternal lodge pins. Mrs. Schmidt identified a mink coat. These articles were stolen on the night of March 8.

Case of Bartlett Like That of Lone Wolf

The case of Alfred W. Bartlett, mentioned by District Attorney O'Brien, paralleled in some ways that of James E. Walters, the Lone Wolf.

In sentencing Bartlett to life imprisonment for the murder of Frank E. Small, Dorchester druggist, Judge Sisk said:

"His entire history, from the evidence, shows that he has an impaired mentality, an unbalanced mind—a man not fully responsible for his acts. Under his plea here today there can be only one sentence, namely State's Prison for life. Should there be a recurrence of the acute delusional insanity from which he suffered while in Concord State Prison, he will be under restraint there and at the same time receive proper expert treatment."

After his arrest Bartlett announced he believed himself to be the reincarnation of Napoleon, and at his trial offered the defense of insanity. He was examined by a number of alienists, some appointed by the State and others by counsel for the defense.

Dr. Clarence Brown and Dr. Ralph M. Chamberlain of the State Department of Mental Diseases filed a report in which they said Bartlett was not insane or feeble-minded. He was termed a "psychopathic personality," and the doctors said "this man has an inherent inability to conform with the law."

Dr. Abraham Myerson and Dr. Douglas A. Thom said practically the same thing in their report, which was corroborated by Dr. L. Vernon Briggs, former executive secretary of the State Board of Mental Diseases.

At the end of the trial Bartlett changed his plea to guilty of murder in the second degree, and was sentenced to life imprisonment.

WOLF'S BRIDE SMILES AS FORTUNE FROWNS

Mary McDonald, niece by marriage of Boston's famous "Lone Wolf," waiting for "Uncle James" to come back to his South Boston home, and Mrs. Irene Walters, nineteen-year-old wife of the alleged Back Bay bandit, who is bravely smiling despite the buffets of cruel fate which has snatched her husband from her.

TWO BANDITS

Continued from First Page.

discovered that men's suits, ladies' coats and dresses were missing. He was in time to see the men drive away in a closed car.

Before many minutes had passed, police of surrounding towns and State constabulary members were on the lookout for the bandit car. Some time later, Corporal Callahan of the State patrol, keeping a watch for the car, came across two men in an automobile at Thorough and Main streets, Concord.

After stopping the car and questioning the men, Corporal Callahan decided to take them to headquarters as suspicious persons. No sooner did he apprise the men of his intention to detain them than the driver "stepped on the gas" and sped away.

Callahan leaped on his machine and gave chase. The chase led to the old Cambridge turnpike, where the bandit car crashed into a fence.

The fugitives leaped from the car and headed in the direction of the swamp. As Callahan started to follow on foot, they turned and sent a volley of bullets in his direction. None of the shots took effect.

GIRL WIFE TELLS OF BANDIT'S PROWESS AS SWIMMER AND IN SOLVING PUZZLES

By MAXINE McBRIDE.

That the Lone Wolf was a crossword puzzle fan as well as the Back Bay bandit was revealed today when young Mrs. Jim Walters told how they used to work them out together every night after supper.

"I used to save the papers and we would work them out together and have the best times, because Jim was awfully bright," she said, "and it used to be fun to do them with him."

Young Mrs. Walters was up by 8:30 this morning, bright-eyed and smiling, and reporting a good night's sleep. She hustled about the kitchen, making coffee, beating eggs and boiling strawberries—a gift from a friend—and "the fruit she was marked for"—so she said.

The Lone Wolf's bride's morning costume consisted of a simple little silk dress, and the only jewelry she wore was her little gold wedding band and a small gold chain around her throat.

She glanced over the morning papers half fearfully. "They put so much in the papers," she said, "and I'm afraid I'll discover something worse that they say Jim has done."

The Crossword Puzzle page was carefully laid aside. "We always used to save them for Jim to work," she said. "He was a regular fan—and smart at working them out."

The young wife sighed as she looked about the tiny home.

"You don't know how I miss Jim," she said. "He used to be the life of the house. When he came home we were just like any other young married couple—happy as could be. As soon as Jim put his foot in the house he'd start the Victrola and we'd dance and foot around, and then after supper, as regular as could be, we'd sit down and work out crossword puzzles."

The Spring sunshine outside called to the bandit's tired wife, and she took a long stroll down the Stranaway, where the ocean, blue and sparkling in the sun, could be glimpsed. It brought back other sad memories to her.

"Jim was a wonderful swimmer," she said, "and just as soon as the water was warm enough we had planned to go swimming together. There was hardly anything Jim couldn't do."

Then the reason for Mrs. Jim's putting up of her bobbed locks was discovered. **"We'll stop in at a drug store for a supply of hairnets," she said. "I'm wearing it up on account of Jim—he liked it that way. He said I looked too kiddish with it bobbed—so I'll keep wearing it up until after the trial at least."**

And then like all young girls—struggling between the great question to bob again or put in a supply of hairpins and hairnets—she wavered.

WILL STICK TO HIM.

"Do you think I would look better with it bobbed?" she asked anxiously.

Her childlike face and naive blue eyes seem to call for the short black locks to wave around her pretty face—but it was decided to leave it the way "Jim liked it" until after the trial.

"I shall stick to Jim—all through the trial," she declared firmly. "I love him still and he was always good to me. But after the trial—if he is declared guilty and given a long sentence—I'll simply put him out of my mind and start all over again!"

Little Mary McDonald, the only member of the family free from worry over this great disaster that has fallen upon them, still clings to "Aunt Irene," and calls for "Uncle Jim."

"Where's Uncle Jim?" she asked plaintively—her arms about Mrs. Walter's neck—"why isn't he here any more?"

"FOR LONG TIME."

"Hush—Mary," said Mrs. Walters sadly. "He's gone to the hospital—and won't be back for a long time."

"I don't want her to know about Jim," she whispered aside. "She's awfully smart for her age—Jim used to teach her things—and I don't want her to catch on about this."

Recalling her own early marriage at the age of sixteen, Mrs. Mary Scott, Irene Walter's mother—traces a similar romance—with the exception of the tragic outcome.

"I was married when I was just sixteen—and I had just known my husband a week," she said. "But he was a fine man—and was always very good to me.

"Irene—she was just like me. She loved Jim from the moment she met him—and she would marry him. My other daughter, Mrs. McDonald, and I thought Irene was too young and wanted them to wait until this June—but he was crazy about her—and said that if we sent Irene up to Portsmouth as we had planned to do—he'd follow her and elope with her. So we decided it was better to have them married and with us—instead of away from us!

"It is the dreary time ahead—after the trial—if her husband is convicted—that haunts young Mrs. Jim's thoughts now.

"It's going to be terrible to try to forget and give him up—when I love him so——" she says with tears in her pretty blue eyes.

CITY AWARDS $1,270,000 DAMAGES

GOES TO OWNERS FOR TREMONT ST. WIDENING

Mayor Curley today approved of the widening of Tremont street, between Arlington square and Stuart street when he signed an order allowing awards of property damages to the amount of $1,270,059.50 recently passed by the Board of Street Commissioners.

The list of property damages was made public for the first time today include $280,000, the highest of the awards to the owners of the recently-constructed Hotel Commodore, at Tremont and Broadway.

To Clarence H. Blackall, prominent architect and member of the school-house commission, owner of the Hotel Hollis, damages to the amount of $130,000 are granted.

$48,000 TO SHUBERTS.

Jennie L. Hamilburg, who owns the property housing the Lorraine Cafe, is awarded $85,930; The Shubert Holding Company, Shubert Theatre location, $48,000; Sidney F. Squires, Hotel Alphin, known years ago as the Tremont House, receives $40,000.

The property on Stuart stree and Tremont owned by the Hutchinson Trust and, controlled by J. Murray Howe, Charles F. Adams and Alexander Whiteside, former corporation counsel, gets $40,160.

The publication of the damage awards today is the closing feature of a long drawn out fight between the City Council and the Board of Street Commissioners for a glance at the figures.

Attempts on the part of certain members of the Council to have the late Chairman Noyes divulge these figures encountered a persistent refusal on the part of the late chairman.

LIST OF AWARDS.

The list of awards is:

Cecelia C. Gaertner	$32,500.00
J. Murray Howe, Charles F. Adams, Alexander Whiteside, trustees of the Hutchinson Trust	40,160.00

Boston & Providence RR. Corp.	797.50
Total	$1,270,059.50

Property owners not satisfied with the awards have one year after construction of the new street starts to file objection with the board of street commissioners.

LYNN BOY WINS PRIZE IN MUSIC CONTEST

Morris Zan, a Lynn boy, won first prize in the piano playing tournament which was part of the contest for young professional musicians held at Steinert Hall today. A girl from Fall River, Juliette Crispo, gave him a spirited fight for the honors. The judges referred to her playing as "quite remarkable."

The contest, under auspices of the State Federation of Musical Clubs, brought out thirty-five youthful performers. John Allen Farnham of No. 1618 Commonwealth avenue, won the violin competition. First honors for voice went to Aidan Redmond, basso, No. 32 Clive street, Cambridge, and Adelle Alberts, dramatic soprano, Roxbury. These winners will enter the Plymouth District Contest and some of them may be sent to Portland, Ore., in June for the national tournament to be held in connection with the meeting of the National Federation of Musical Clubs.

GIRLS TO ACT AS 'BAIT' IN AUTO SHEIKS CRUSADE

Atlantic City, N. J., March 26.—Local young women were asked by Chief of Police Harry H. Frings, of Ventnor City, near here, to act as "bait" in the campaign his department plans to wage for the extermination of "automobile sheiks." In a statement to local newspapers, Frings asked the Ventnor flappers to daily long enough, when approached by an automobile containing a strange but hospitable young man, to note the license number and turn it over to a patrolman.

JAPAN'S COLOSSAL BUDDHA RESTORED TO HIS DAIS

Tokio, March 28 (A.P.).—The Daibutsu, the colossal bronze Buddha of Kamakura, is once more seated in his ancient position on the lotus flower dais from which he was jolted a few feet in the great earthquake.

For nearly a year the work of restoration has been in progress. The huge casting, weighing 145 tons, was raised from its pedestal and kept suspended while the base was rectified. Thereupon the image was lowered carefully into position.

Boat Christened With Bottle of Real Champagne

There was a smacking of lips that indicated some parched throats as a new fishing boat, the Emanuela, was launched at the Saunders Boat Yard, South Boston. Despite the Volstead act a bottle of champagne was broken over the bow of the craft. Little Stacia Neraci, niece of Manuel Vernaci, owner of the boat, had the honor of christening the craft.

The Emanuela is forty feet long with a twelve-foot beam. It is equipped with a motor and has a speed of 8½ knots an hour.

NATION-WIDE LOCKOUT CALLED OFF IN SWEDEN

Stockholm, March 27.—The nation-wide lockout in Sweden was called off today and the 130,000 workers involved will resume their employment. After an all-night session the labor union delegates and the government mediation committee at 7 o'clock this morning reached a compromise settling the entire labor conflict in the five important industries affected.

ALL BANKERS WATCHING SUIT OVER FUNDS

Judge Elisha H. Brewster of the Federal District Court today has under advisement a case in w hich every bank in the United States is interested and which may cost banks and bankers big sums of money if it is decided adversely for them.

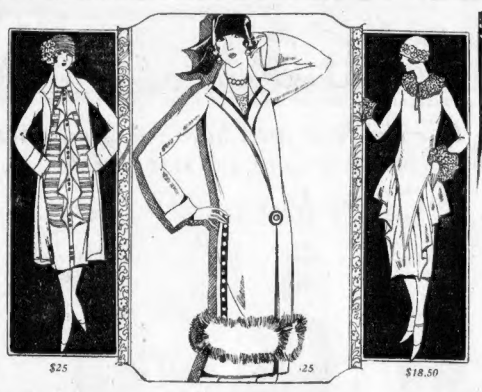
In 1921 the United States Emergency Fleet Corporation began a suit involving millions against the Atlantic Corporation, a Portsmouth, N. H., shipbuilding concern which was under contract to build ships for the Fleet Corporation.

Deposits of the Portsmouth concern, amounting to about $100,000 in the New England Trust Company of Boston were attached.

Since that time the Trust Company has paid out approximately $10,000 in interest to the trustees of the Atlantic Corporation and the Fleet Corporation has brought suit against the bank for that amount, alleging that interest accruing after attachment is covered by the attachment.

President James R. Hooper of the New England Trust Company and Vice-President Bertram B. Blaisdell of the First National Bank, the latter qualifying as an expert witness, both testified that it has long been the custom in Boston to pay interest on attached bank deposits to the depositor and not include it in the attached funds.

Assistant United States Attorney Laurence Curtis 2d argued the case for the Fleet Corporation and Attorney Burton R. Kames for the defence. Some of the larger banks were so deeply interested in the case that they sent their attorneys to listen to the trial and arguments. If the suit goes adversely to the bank it is probable that many other suits growing out of similar situations in the past may spring up in the courts. It will probably go to the United States Supreme Court for final adjudication.



Misses' Easter Apparel

—the Ensemble Suit $25

The very adaptable day-long costume—a trim tailored effect when the coat is worn, and a dressy frock to reveal at afternoon occasions. A silk, plain or printed, is generally used for the frock.

—the Flare Frock $18.50

A frock, youthful in design, is of flat crepe with a flaring ruffle applied in a V-shape. Collar and cuffs of printed crepe. More tailored styles for the business girl combine twill and printed crepe.

—the Fur Bordered Coat $25

Coats are essentially straight in line. Some introduce a flare at sides or front. Bands of blonde fur trim the hem line and sometimes the collar and cuffs. A boyish type of coat has the notched velvet collar and double breasted effect, so becoming to misses.

SECOND FLOOR

Toilet Creams and Lotions

the Easter Hat $5.00

—for the suit, $5.00

The ribbon hat is very new. The gored crown is smartly surrounded by wide satin ribbon, which forms a brief, modish streamer. All black, save for its brilliant ornament.

—for the coat, $5.00

The wider brim is an innovation. Of rust colored hemp, faced with silk, and trimmed with feathers and burnt goose.

—for the dress, $5.00

Hair braid enters the season. A drooping brim wears shaded ribbon in interesting pleats. A harmony in fuchsia tones.

SEVEN DEAD IN PRAIRIE FIRES IN 4 STATES

Farms and Ranches Swept by Flames in Dakotas, Nebraska and Oklahoma

Omaha, Neb., March 27.—Seven persons are known to have been killed in fires which today were sweeping Nebraska prairies, Oklahoma and the Dakotas, driving hundreds of settlers from their homes and menacing entire communities.

Scores of farm houses lie in ruins and much livestock has been destroyed.

In the Oklahoma district the flames were said to be raging through McCurtain and Pushmahata counties in the southwestern part of the State. The state game preserve was being swept by the fire and hundreds of wild animals are fleeing before the flames.

The fire in the Dakotas was being driven by a high wind. The flames broke out following weeks of dry weather.

Ten thousand men and boys today fought to check a fire within ten miles of Broken Bow, a village in the centre of the Klamichi Mountains, Oklahoma.

ANTI-VETS' BILL DEFEAT IS FORECAST

Hard Fight on the Preference Measure Is Expected in the House Today

Doom of the bill which would deprive World War veterans of the right to appeal to local authorities when removed from positions under civil service is predicted when the measure comes up for third reading in the House of Representatives today.

House leaders are unanimous in declaring that the fate of the bill hangs on three or four votes, and veteran organizations concentrated their efforts early today in a last drive against the measure which they declare violates their rights as veterans.

CLOSE VOTE.

The closeness of the vote in ordering the measure to a third reading has encouraged the opposition. Of the 106 who voted against the bill, 62 were Democrats and 44 Republicans. The 113 recorded for the bill were all of the majority party.

Six Republicans and seven Democrats failed to respond when their names were called. They were John K. Burgess of Dedham, Julius Carman of Springfield, Arthur W. Colburn of Dracut, Louis N. M. Deschenes of Fitchburg, Olof F. Ohlson of Worcester and Ralph Otis of Pittsfield, Republicans.

The Democrats were Thomas F. Donovan of Boston, John I. Fitzgerald of Boston, Matthew A. Higgins of Taunton, Felix A. Marcella of Boston, Edward M. Mutz of Boston and James T. Welch of North Adams.

TO GET MORE VOTERS.

Attempts will be made today to get these men on record.

Speakers for the bill contended that they believe firmly in the veterans' preference act as far as appointments are concerned and there is no doubt that any suggestion of a repeal of that section of the preference legislation would have been voted down overwhelmingly. As a matter of fact, bills designed to break down the preference in appointments have previously been rejected by the public service committee.

AVIATORS OFF TO PLAN AMUNDSEN TRIP

Oslo, Norway, March 27.—Three aviators who will take part in the projected Amundsen flight over the North Pole have left Tromsoe for Spitzenbergen to begin preparations.

GIRL BADLY INJURED BY MOTOR TRUCK

Ruth Frances Alter of Roxbury, who was struck by truck while crossing Humboldt ave. She was returning to meet her father when hit. She was seriously injured.

While crossing the street to see her father, who was standing in the doorway of his drug store, four-year-old Ruth Frances Alter, daughter of Louis H. Alter, of No. 73 Humboldt avenue, Roxbury, was run down and injured by a heavy truck driven by Israel Geshman.

At the City Hospital, to which she was taken in the truck after her father ran into the street and picked her up, it was found the child had suffered serious injuries to the thigh and multiple contusions and abrasions.

SEE FLOOD OF CANADIAN BOOZE THIS SUMMER

Washington, March 27.—Basing their estimates on activities along the Canadian border, the national association against the prohibition amendment predicted today that "whiskey will be plentiful this Summer, and cheap at that." "As the warm weather continues," it said in a statement, "and the demand for the highball, the rickey and the julep increases, so the rum running along the Canadian border will increase also. Prohibition officials, according to our information, are helpless in the face of this unprecedented onslaught."

TODAY

Continued from First Page.

falling birthrate. Last year new French babies outnumbered French deaths by only 72,216. The year before the increase was 95,000.

AS FAR as safety goes, however, France needn't worry. The millions that used to be needed for "cannon fodder" are needed no longer. The great caterpillar-like armies of crawling infantry will be replaced by a few thousand fighters in the air. Fifty such men as the great Guynemere could demoralize an army of a million, and kill one-third of it.

THE LADY OF SPOKANE demands a divorce because her husband, at breakfast, milked a goat directly into his cup of coffee. He keeps the goat in the house. The lady declares that such "table manners" could not be endured by any person of refinement.

"Other times, other manners." Eve would have thought it very clever had Adam done exactly the same thing.

THE WEALTH of this country is now figured at $350,000,000,000, which means three hundred and thirty times one thousand million dollars. That amounts to only $2,900 for each inhabitant, which is, of course, ridiculously little. The population would bring more than that if all the people could be sold as slaves at their fair value as money earners.

Any one of the forty-eight States, fully developed, would be worth more than $350,000,000,000. Alaska is worth more than that in mineral wealth alone.

HOLDS SUNDAY SPORTS ILLEGAL IN METHUEN

Methuen, March 27.—Despite the fact the people at the annual town election voted to accept the Sunday sports act, legalizing sports on the Sabbath, Sweeney, Sargent & Sweeney, town counsel, have advised Chief of Police Frank Seiferth that Sunday sports cannot legally be allowed. They point out that despite the vote of the people, their representatives in town meeting voted against accepting the act. Counsel holds that "the vote of the inhabitants is only the expression of an opinion."

SELECTMEN OPPOSE CAR LINE RESUMPTION

Leicester, March 27.—The selectmen will meet tonight to oppose the resumption of the trolley service between Worcester, Leicester and Spencer, which was suspended on Labor Day. F. Lincoln Powers, Leicester selectman, said the trolley company's move was part of its fight against the bus system.

Town Counsel Mullins of Rochdale has been instructed to determine whether the company has voided its franchise by suspending its service for more than six months.

WOMEN VOTERS ELECT BOSTON WOMAN AS HEAD

Mrs. Mary T. Healy of Boston was elected active president of the Boston League of Women Voters, at the annual meeting in Perkins Hall on Boylston street.

DEATH REVEALS MILLIONAIRE'S SECRET BRIDE

Aged Newman Erb's Wedding to Young Woman Was Told Day Before He Passed On

New York, March 27 (I.N.S.).—Newman Erb, millionaire railroad man, who died Wednesday, following an operation, was buried in Brooklyn today, with his widow, his two daughters and former associates present.

The marriage of the financier to the present Mrs. Aeb, which took place in a Philadelphia suburb last May, was not revealed until a day before his death.

Even the daughters of Erb, Mrs. Irving Dittenhoefer and Mrs. Jesse Mayer, were ignorant until then of their father's second marriage. Mrs. Erb was formerly Miss Margaret Trodden. Erb's first wife died in 1905.

Mrs. Erb, who is said to be in the thirties, was at the bedside of the aged financier when he died. She occupied an apartment across the hall from the one in which the railroad magnate lived.

CORNING WOMAN DIES AT AGE OF 105 YEARS

Corning, N. Y., March 27.—Mrs. Susan Ryan died at her home here today at the age of 105 years.

Giant Water-Spout Sighted by Holy Land Ship

New York, March 27.—A huge water-spout, miles high, was sighted by the S. S. President Arthur, fifty miles east of Gibraltar, according to radio advices received at the offices of the American Palestine line.

The phenomenon, which created considerable excitement, was clearly visible from the decks of the ship. The President Arthur, first ship of the Palestine line, left New York recently with about 500 Jews on board and a cargo of machinery for the Holy Land.

CULT IN WILD DANCE AFTER BRANDING

Fanaticism Carried to Point of Insanity Caused Death, Says Prosecutor

Oroville, Cal., March 27 (Universal.)—Religious fanaticism carried to the point of insanity was responsible for the branding of Herman Schalow, orchardist of Gridley, who died in an Oroville hospital several days ago, according to District Attorney William P. Rothe, who has investigated the rites of a religious cult.

Attorney Rothe believes evidence of insanity are so strong that criminal charges will not be preferred against Mrs. Anna L. Rhodes, sister of the dead man, who is alleged to have participated in the branding ceremony, declared to have been part of the "purification by fire" ritual of the Assembly of God Church of Gridley.

Mrs. Rhodes is the high priestess.

Mrs. Rhodes and her husband, Edward Rhodes, will be arrested on insanity warrants, the district attorney said.

In the hospital where Schalow died the record indicates he died of a blood poisoning disease. It was not until the body was being prepared for burial that nearly a dozen branding scars were discovered.

According to a confession alleged to have been made to District Attorney Rothe by Mrs. Rhodes, a "dance in the nude" followed the "branding party," at which the woman said she applied a fiery poker to Schalow's head and body, marking him with the sign of the cross.

To date the investigation has failed to indicate any connection between the fatal branding of Schalow and the fact that his life had been insured a few days before his death.

STILL DISCOVERED IN OLD SPANISH EMBASSY

Washington, March 27.—One of the most complete distilling establishments ever uncovered by prohibition agents was found in an imposing house near Connecticut avenue and 23 street, which once had been the Spanish embassy.

Charge purchases beginning Saturday placed on bills rendered May 1. If you haven't an account why not open one, Credit Manager, seventh floor.

FELIX ARRIVES FOR WIDENER COURT CASE

Russian Prince Says His Rembrandts, Worth $500,000, Are Illegally Withheld

New York, March 27.—Prince Felix Youssoupoff, Russian royalist arriving on the Mauretania today, said he had pawned all of his remaining jewels, and had used the reported $400,000 proceeds of a sale of rare black pearls to Mrs. Peter Gorry of Washington, to relieve the conditions of Russian exiles in London and Paris.

Prince Youssoupoff will attend the opening, April 6, of his suit against Joseph Widener of Philadelphia. He seeks to recover two Rembrandt paintings, valued at $500,000, now in Mr. Widnerer's possession.

He charges that Widener refused to permit him to redeem them, despite an understanding when he pledged them as collateral on a loan of $500,000 in London in1921.

MEN WHO DECIDE CHAPMAN'S GUILT

The members of the jury are, in back row, Walter S. Case, Charles H. Isleib, Arthur E. Bowers, Emerson E. Olcott, A. W. Burrows, Thomas S. Rourke. Front row, Samuel S. Chamberlain, William J. Crockett, Lawrence Klein, Gavan S. Fallow, Fred W. Veits, and George G. Hubbard.

DROP 4 INDICTMENTS IN H. V. GREENE CASE

Former Assistant Attorney General Albert Hurwitts, representing Attorney General Benton, appeared before Judge Bishop in Suffolk Superior Court today and announced the nol pros of four indictments in the Henry V. Greene case.

He obtained an assignment for trial of four other indictments on November 2, charging conspiracy to fraudulently advertise, conspiracy to commit larceny in ten counts and fraudulent advertising.

Mr. Hurwitts said the reason the Attorney General had nol-prossed the indictments was because of a recent report by Arthur Black as master which exonerated Greene of intent to defraud.

SHEAN RUSHED FROM VIEW OF CHAPMAN

Continued from First Page.

he would link this stolen car with Chapman, would trace it from Steubenville, O., to New Britain, Ct., and would show it, registered in Chapman's name in this State, but under the prisoner's alias, Waldo W. Miller.

Snyder identified the car, which he said he was shown in this city by the authorities.

Miss Bourne testified:

"It was about 10 o'clock on Saturday night when this man came into the showroom. He wore a soft hat, black overcoat, black kid gloves. He stepped up to the sedan, tried the door, and remarked: 'Do you keep it locked?' I said we did. He replied: 'It's a darned good way to keep it.'"

"PIERCING EYES."

Cross-examined by Judge Groehl, Miss Bourne declared the stranger's "peering eyes seemed to go right through you."

Q.—You say you are sure this defendant is the man who called at the showroom? A.—I am.

Q.—Didn't you sit up front in the court room yesterday in order to get a good look at this defendant? A.—No, I wanted to hear.

Q.—But you did sit where you got a good look at the defendant? A.—Yes.

Q.—And you were shown a picture of the defendant? A.—Yes.

Q.—By whom? A.—By Detective Hickey here.

William E. Allison, formerly driver of a bus, testified he saw a Lincoln car in the road on Monday, April 7, at Hibben, forty miles from Steubenville.

"I got out and asked the fellow standing at the lifted hood if he needed any help," said Allison.

IDENTIFIES CHAPMAN.

State Attorney Alcorn—Do you see that man in court? A.—I do. That is the man over there indicating Chapman who seemed to be trying to suppress nervousness.

Cross-examined by Judge Groehl, Allison declared he had a vivid recollection of Chapman's features. **He said his eyes were blue and the most piercing he had ever seen.**

Judge Jennings cautioned Judge Groehl not to be too gruff with the witness Allison "and not to climb over chairs at him."

Chapman practiced pistol shooting at a remote Indiana farm last Spring and Summer, according to the testimony of big Ben Hauce.

He used a meadow as a rifle and revolver range months before he is alleged to have blown a department store safe and shot Patrolman James J. Skelly in New Britain last October.

When Judge Groehl asked Hauce in cross-examination if there weren't other implements in "all the world" similar to a tool offered in evidence, Ben replied: "Don't know. Ain't been all over the world to look."

Q.—Got quite an eye for detail, haven't you? A.—Yep, right smart at such things.

KNOWN AS "MILLER."

There was a war-like rattle of artillery when State Attorney Alcorn offered as exhibits two short guns and a pistol and other metallic odds and ends siezed by the authorities at Hauce's Indiana farmhouse from among the personal effects of Chapman, who Ben identified as the "Tom Miller" who came there last April with two other stranger lodgers.

Deputies rushed Walter E. Shean of Springfield out of the courtroom before Chapman entered through the detention pen to take his customary seat at the counsel table, guarded by four armed deputies.

Thus was avoided a meeting in court of the two young men who are now enemies.

Shean, dapper and fashionably dressed, had been sitting with his father, a wealthy hotel owner of Springfield; his brother and one of his three lawyers in a space reserved for witnesses near the long prisoner pen.

By exercising much haste deputy sheriffs bundled Shean out of sight before Chapman's dark head and haggard face came into view of spectators.

SAMUEL VAIL GOBLE DIES OF PNEUMONIA

After a week's illness Samuel Vail Goble, known throughout the country as a food broker, died at the McLeod Hospital, Beacon street, from pneumonia. Mr. Goble was fifty years old, and lived at No. 48 Kilsyth road, Brookline. He was associated with Palmer, McElwain & Cole, No. 131 State street. Born in Cincinnati, Ohio February 11, 1875, he came to this city a number of years ago. For eleven years he was New England division sales manager for the Post Products, Inc., before his connection with the State street firm. He was a member of Dethoran Lodge of Brookline, a 32d degree Mason, a member of Aleppo Temple of the Mystic Shrine and of the Scottish Rite body. He is survived by a brother, E. R. Goble. The funeral will be held in the Crematory Chapel at Mt. Auburn Cemetery at 11 a. m. tomorrow.

SOVIET THREAT TO BRITAIN IN FAR EAST

Moscow Government's Answer to European League May Be Jap-Russo-Chinese Alliance

By KARL H. VON WIEGAND

Berlin, March 27 (Universal Wireless).—Russia threatens to answer the security pact of the Western European powers as proposed by Germany with an intensified Communistic propaganda against England in Asia.

This threat to Britain is becoming more and more articulate through confidential diplomatic channels and appears to be intended to stop the British from further encouraging the proposed pact without proper consideration of Soviet Russia.

Russia, I learn, is making it clear, even if as yet wholly unofficially and informally, that if she is ignored it will have the inevitable effect of throwing her into an Asiatic bloc which her diplomatic representatives disclose would be put the prelude to dividing the world into two vast camps—the East and the West—which in turn and in time could lead to developments which in the distant future would bring on the Biblically prophesied last great battle of Armageddon.

FAR EAST BLOC.

In the informal exchanges of views between Britain and Germany on the latter's proposal for a security pact, Britain, I am informed, stressed that Russia must not be driven Eastward into a bloc with Japan and China or to increase its propaganda pressure in Egypt. This with the fact, which is well known, that Moscow invariably exacts hard conditions when she believes herself to be in a tactically advantageous position, is creating considerable skepticism in German circles in regard to the rapid progress of formulating details of the pact.

The governmentally inspired Prague press also strike the note that the "Western Security Pact" will have as a necessary corrollary an "Eastern Pact" if the little entente is not given the consideration it deserves.

CANADIAN CANOEIST REACHES MARSEILLES

Marseilles, France, March 26 (A.P.)—Drenched to the skin, but cheerful, George H. C. Smythe, the canoeist who set out last August from St. John, N. B., to paddle to Rome, except for the trip across the Atlantic, has reached Marseilles.

WOMAN FAINTS AS SHE SEES PROWLER IN HOUSE

An unidentified night prowler who for the past two weeks has been operating in Saugus, made his appearance in the home of Mrs. Mildred A. Varney, No. 827 Central street, Saugus, scaring her into a fainting fit. The woman recovered an hour later and notified the police, who could find no trace of the intruder. Mrs. Varney was not harmed and nothing was molested in the house. She told police that while reading she heard a noise in the cellar. A short time later she saw a man in the next room, and fainted.

Floods Kill More Than 50

Pretoria, South Africa, March 27 (I.N.S.)—Fifty natives and several white persons have been drowned in floods caused by the rising of the Tugela river.

SOVIET PRESIDENT TO HAVE TROTZKY ARRESTED

London, March 27 (Universal)—According to a dispatch to the Daily Express from Riga, Trotzky and two of his staff have disappeared from their villa at Sukhum in the Caucasus.

President Stalin has ordered the secret police to arrest Trotsky and those with him. All trains and ships are being watched.

List of Distinguished Patronesses Named for Military Ball April 17

Boston Notables Reserve Boxes for "Hansel and Gretel" to Be Staged by New England Conservatory

Betty Alden

THE NAMES of MRS. NATHANIEL F. Ayer and Mrs. Robert Winsor, Jr., are the Alpha and Omega of the smart and most distinctive patroness list gracing the handsome invitations just sent out by the Military Order of the World War for their annual Military Ball.

APRIL 17 IS THE DATE chosen, and the Hotel Somerset ballroom is the place. This year's affair is in commemoration of the one hundred and fiftieth anniversary of that historic struggle at Concord and Lexington and will be a brilliant turnout of swagger uniforms and beautiful frocks.

MANY NOTABLE Bostonians who were in their country's service as officers during the World War are members of the Order, and their wives take prominent place on the patroness list. There are Mrs. Charles Pelham Curtis, Jr., Mrs. Charles P. Greenough, 2d; Mrs. Thomas G. Frothingham and Mrs. Robert W. Emmons, 2d.

AND MRS. JOHN H. SHEBBURNE, Mrs. George H. Lyman, Jr.; Mrs. Joel E. Goldthwait, Mrs. Theodore L. Storer, Mrs. Walter M. Pratt, Mrs. Thorndike Dudley Howe, Mrs. George B. Dabney, Mrs. L. Varnen Briggs, Mrs. Lincoln Davis and Mrs. Eben S. Draper, among others.

LIEUTENANT-COLONEL Eben Draper, General John H. Sherburne, Lieutenant Levarett Saltonstall, Lieutenant-Commander E. S. R. Brandt, Major Walter M. Pratt and a score of other officers are arranging the dance, which stands out resplendent in the late Season's offerings to those who enjoy the lighter side of life.

A SECOND SPONSOR list breathing an air of Smartdom is that of the box holders already assembled to assist in putting over to tremendous financial success the performance of "Hansel and Gretel" at the Boston Opera House on April 28 by the New England Conservatory of Music. Mr. Wallace Goodrich is directing.

(Photograph by Bachrach.)

MRS. WILLIAM GORDON MEANS, one of the box holders for "Hansel and Gretel," which the past and present pupils of the New England Conservatory are staging under Mr. Wallace Goodrich's direction.

MRS. WALLACE GOODRICH has taken a box, also Mrs. F. L. W. Richardson, Mrs. George H. Monks, Mrs. S. V. R. Crosby, Mrs. E. Sohier Welch, Mrs. Donald McKay Frost, Mrs. Alvan T. Fuller, Mrs. Eugene E. Endicott, Mrs. Morgan Hall, the gallant "Squiree" in white costumes, white wigs and tri-corne hats appeared in the very first "Drill." Miss Dorothy Forbes was its leader, and none there was who made a handsomer stage presence.

SINCE THEN there have been British Grenadiers with an excellent fife and drum corps. Later the Scots Guards made a perfect furore in their swinging Scotch kilts and busbys, with Miss Alice Thorndike at their head playing the skirling bagpipes.

RECENTLY the Vincent girls evolved an unusual outfit for the "Drill" which was done by "Penguins" and last season a band of French headsmen in shining black oilcloth combined with bright red stalked through the intricate and precise figures.

THIS SEASON'S oriental setting for "Pat" gives wide latitude for costume, and the drill will be outstanding in the brilliant spectacle. Just what the drill uniform is, and who is the leader, is one of the many deep secrets the Vincent girls are guarding so closely to throw a veil of present suspense and ultimate surprise about their production.

Far Famed "Drill" to Be Grand Feature of Vincent Club Show

Butler (Bernice Fisher) and Mrs. William Gordon Means.

THE LAST NAMED most distinguished Bostonian is just emerging from a period of mourning following the death of her uncle, the late Senator Henry Cabot Lodge. Her place in Boston's inner set is a notable one, by inheritance and breeding, of course, as well as by grace of a charming personality.

AS THE FORMER Mrs. Constance Gardner Minot she played the brilliant hostess role both at her North Shore place and in Washington. Her place in the Capital's cosmopolitan sets was an unusual one. Although she was not an official hostess, one met all the wig-wigs, both native and foreign, at her establishment.

SHE FREQUENTLY presided at dinner at the home of the late Senator, whose favorite grandchild she was. Her late father was Augustus Peabody Gardner, and belonged, like the Lodges, to Boston's conservatives. After his death her mother married Colonel Clarence Williams.

HER OWN MARRIAGE to Mr. Means is the culmination, so they say, of a boy and girl romance, and was solemnized very quietly at the Washington home of Colonel and Mrs. Williams just about a year ago.

SPEAKING AGAIN of the Conservatory's most ambitious project—the much-beloved and fairy-like opera of Humperdinck is due for a cordial welcome when it takes the boards at the Opera House late in April.

CHORUSES, orchestra and ballet, assembled from past and present Conservatory pupils, are energetically at work. There is also a warm personal welcome due those two Boston favorites, Mrs. Bernice Fisher Butler and Mrs. Jeska Swartz Morse, who play "Hansel" and "Gretel."

MADAME MARIA CLAESSENS, lately in town with the Chicago songsters, is coming on as a guest and to sing the part of the Witch. For tickets one may apply to Mr. Ralph Flanders, the manager of the Conservatory.

PROBABLY NO PART of the forthcoming Vincent Club show creates more interest or has a more colorful history than the far-famed "Drill." To be chosen for the drill is honor indeed to the debutants, and means as well that she possesses poise and grace and fine carriage.

BACK BAY FOLK FAVOR NEW TUNNEL

New Subway Under Huntington Avenue Urged by Big Delegation

Representatives of Back Bay religious, educational and industrial interests appeared at the State House in support of the bill providing a rapid transit tunnel from Massachusetts avenue, under Huntington avenue, to Washington street and Church Green.

The delegation was headed by Attorney C. Augustus Norwood, representing the Christian Science Church. Ralph L. Flanders, general manager of the New England Conservatory of Music, and heads of the Northeastern University and Simmons College were also scheduled to speak.

The proposed tunnel would connect with Dartmouth street and the Back Bay station. The theatrical interests are supporting the tunnel scheme because of its connection with Arlington street. A further proposed development would be an extension to State street and a connection with the East Boston Tunnel.

'JAZZ SLAYER' NEAR TOTAL COLLAPSE

Fear Dorothy Ellingson Will Break Under the Strain of Trial; Seek One Juror

San Francisco, March 27.—"How long can she last?"

This query was on the lips of all observers as the trial of Dorothy Ellingson, sixteen-year-old matricide, entered upon its fifth day today.

Will the fast fading strength of the tortured "jazz baby," who has completely collapsed a half-dozen times already, flee completely when the actua tria breaks over her head? Or will she, in a sudden frenzy, bring some new and dramatic element into the trial?

There were no answers to these questions as a fresh panel of jurors was called into Judge Louderback's courtroom today to permit completion of the jury. Attorneys on both sides were frankly puzzled and apprehensive.

Morbidity curious flocked to the courtroom, drawn by accounts of the girl defendant's suffering.

Two women and nine men were in the box as court sessions resumed today. The defence has exhausted its peremptory challenges, while the State has four remaining.

Swampscott Girls Back in School Minus Bells

Engine bells, sleigh bells, fire bells and wedding bells are permissible in Swampscott, but in the Hadley Junior High School the ban has been placed on garter bells.

Seven girls who attend the junior high have been reinstated in their classes, after presenting notes from their parents setting forth that the girls have been brought around to the point where garter bells are distasteful to them and that hereafter they will report to school without the tinkling garters.

The girls had previously created a commotion by appearing in school with garters whose hidden bells jingled at every step. They were sent home by Miss Jean Allen of the school faculty.

C. O. Barrows Dead

Portland, March 27.—Charles O. Barrows, Maine Supreme Court stenographer for about 35 years, died suddenly of acute indigestion in South Portland. He was 68.

STAFF MAN OF AMERICAN IS HONOR GUEST

Capt. Creed Tells Victorian Club How Lord Kitchener Organized War Supply

Speaking as the guest of honor at the Victorian Club last night at the Somerset Hotel, Captain Percy Redfern Creed, of the editorial staff of the Boston Evening American, gave an interesting account of the work he did for Lord Kitchener in organizing the supply of munitions during the critical period of April, May and June, 1915.

In the course of this work, Captain Creed came in contact with King George, Herbert Asquith who was then Prime Minister of England; Lloyd George and other prominent men. Captain Creed told the story of how he organized for Mr. Asquith the meeting at Newcastle-on-tyne in April, 1915, when Mr. Asquith made his famous "Shells" speech which brought about the fall of his government which was replaced by the first Coalition government.

LAUDS KITCHENER.

Speaking of Lord Kitchener, Captain Creed claimed that when the history of the Great War comes to be written in a correct perspective, Lord Kitchener will stand out on a peak by himself as the greatest war emergency organizer of all time. Lord Kitchener was the only man in any country in the world who had the genius to realize what the war meant. When he, immediately on taking over his duties as secretary of state for war in August, 1914, said that the war would last "three years" he saved the situation.

He not only spoke about a long war. He proceeded forthwith to organize for a protracted struggle. He created armies on a scale hitherto undreamt of by any Englishman. When he set his hand to this task he had practically no supporters. But his genius and instinct told him that he was right and he drove ahead. He had the British nation behind him and it would have given a short shift to any one who was suspected of trying to thwart the man in whom the British people had a passionate belief and entire confidence.

"BIG BROTHER."

Captin Creed explained that Lord Kitchener was a delightful man to work for. Very different from the public conception of him; he was genial, sympathetic and more like an elder brother than the hard sphinx-like character which is generally associated with him. He gave the freest of free hands. Speaking on this point Captain Creed said that he asked Lord Kitchener whether he was to send him in reports.

The answer was: "No. For two reasons. Firstly, you will not have time to write them, and secondly, I want shells, not reports."

An answer, as Captain Creed said, which was typical of the man and his methods.

DRYDOCK SETS RECORD LIFTING LINER MAJESTIC

Universal Cable.

London, March 27.—The world's record weight lifting feat was accomplished at Southampton when a huge 60,000-ton floating drydock lifted the Majestic, weighing 56,551 tons, out of the water for the purpose of undergoing an overhauling. Sir Bertram Bayes, retired skipper of the Majestic, made the 550-mile journey from Liverpool for the purpose of witnessing th operation.

Last 2 Days of Your Greatest Money-Saving Opportunity

HOUGHTON & DUTTON CO.—STREET FLOOR

AUTO ASSOCIATIONS TO FAVOR GASOLINE TAX

The joint ways and means committee has cleared the way for consideration of the revision of automobile taxation.

Hearings began on four bills which affect revenues collected for highway improvements, and the discussion branched out to include every form of automobile taxation which has been suggested. Questions by members of the committee indicated that bills will not be considered on their individual merits, but all will be regarded as parts of a comprehensive plan.

An interesting development was the admission by Day Baker, legislative representative of several automobile associations, that he favors an increase in registration fees and, if this proves insufficient, a gasoline tax. He was one of the leaders in the fight against the gasoline tax last year. He declined to state whether he would favor a 1-cent or a 2-cent tax.

FOOD VALUES TO BE TAUGHT HOUSEWIVES

Miss Gertrude Spitz, Dietic Expert of Welfare League, Instructs Volunteer Aides

Every little calory has a value all its own. Nowadays everyone must know how many calories his breakfast cereal contains and whether there is plenty of protein in the soup.

Miss Gertrude Spitz of the Family Welfare League of Boston, an expert Dietitian, lectured before a large gathering of volunteer workers on food values and how to obtain the highest value for the amount of money to be expended.

Members of the league who do district visiting will thus be able to instruct families how to make up their budget and how to make the most of what they have. She said:

"There are children who never had a warm meal in their lives. There are children who are undernourished just because they were given the wrong things to eat," said Miss Spitz. "One mother had been giving her little boy French toast and cocoa mixed with water and wondered why he was not stronger.

FORMER HUB MAYOR GREETS COUSIN, 104

Portland, Me., March 27.—Portland's "grand old lady," Mrs. Julia Maria Norton De Land, quietly celebrated her 104th birthday at her home on Oak street. Dozens of congratulatory messages and many flowers came to the oldest resident of the city during the day.

A message of good wishes was sent by Thomas N. Hart of Boston, a former mayor of that city, 91 years old, who is a cousin of Mrs. De Land.

FOOD EXPERT TALKS ON CALORIES

Miss Gertrude Spitz, dietitian of the Family Welfare League of Boston, tells volunteer workers how to obtain the greatest value from foods at the least expense. The volunteers will carry Miss Spitz's message into Boston homes in connection with their work.

WINNING "LAST LINE"

For Limerick No. 29

(Published Friday, March 20)

First prize of $25 won by E. J. Hunt, No. 30A West Wyoming Avenue, Melrose, with "Last Line" printed below:

Hudson high school belles, so they say,
Wear bells on their garters every day;
"Hard to study," say the boys,
As they view the new toys,
Their eyes, like some streets, are one way.

CHICAGO OPERA ORCHESTRA HIGHEST PAID IN WORLD

Chicago, March 27.—The eighty-two members of the Chicago Civic Opera Company's Orchestra have become the highest paid musicians in the country, if not in the world, James Petrillo, president of the Musicians' Union, said today with the signing of a new wage agreement. The players were given a wage increase of $4 a week, bringing the minimum to $119 a week. In addition the agreement provided for $6 for each practice, adding $35 for $40 a week. The average salary will be close to $155 a week during the twenty-weeks of the opera season Petrillo said.

Filipino Commissioner Dies

Manila, March 27.—Dr. T. H. Pardo de Tavera, 68, first President of the Philippine commission of 1901, died here today. Dr. de Tavera was an advocate of the policy of peace under American sovereignty with eventual statehood for the Philippine Islands under the American flag.

29th Daily Limerick Prize Winners

(PUBLISHED FRIDAY, MARCH 20)

FIRST PRIZE—$25

E. J. Hunt, No. 30 A West Wyoming avenue, Melrose.

ONE DOLLAR AWARDS

Helen Langley, No. 68 Thornton park, Winthrop.
Mrs. Martha Haynes, No. 81 Clover avenue, Atlantic.
John J. Downey, No. 379 Chestnut avenue, Jamaica Plain.
J. W. Pearson, No. 122 Church street, Newton.
John J. Farrerr, No. 172 Andover street, Lawrence.
Margaret Connolly, No. 18 Home street, Malden
Mrs. Ruby Snow, R. F. D. 1, Thomaston, Me.
Carlton J. Blumberg, No. 16 Pearl street, Gloucester
Myrtle M. King, No. 286 Main street, Worcester.
Grace Mansfield, No. 74 Abbott street, Gardner.
Katherine Reidy, No. 1466 Gorham street, Lowell.
Helen J. Simpson, No. 86 Burgess avenue, East Providence, R. I.
Miss Mildred Fitzsimmons, No. 28 Randall street, Taunton.
Mrs. George Whalen, No. 163 Main street, Hudson.
Mary Gillespi, No. 270 East Ninth street, South Boston

GIRL OF 9 WINS AWARD

Mary Gillespie of No. 270 East Ninth street, South Boston, is nine years of age today.

That may not mean much to the rest of the world, but it means a great deal to Mary, and what is more, she is going to have ice cream and candy for her birthday party as the result of her initiative in composing a best "last line" in the Boston Evening American's daily limerick tournament.

Said ice cream and candy will be purchased with the $1 award Mary won. Mary says her mother is going to make the cake to go with the ice cream, all of which means that the "goose hangs high" on East Ninth street.

In sending her "last line" to the limerick editor, Mary wrote:

"This morning I filled out the 'last line' on jingle No. 29. Hope I win a prize, as I will be nine years old on the twenty-seventh day of March and would like to have a birthday party and if I win a prize it would help out to buy some candy and ice cream as my mother is going to make the cake. I will now close with love."

Miss Gillespie is only one of several school children who have sent in clever endings to the American Limericks.

Several more extra prizes are offered for best "last lines" to today's limerick. These prizes consist of three more pairs of best orchestra seats for "Little Jessie James," now playing at the Wilbur Theatre, and five pairs of best orchestra seats for the Fenway Theatre.

"Little Jessie James" is, without question, one of the best musical comedies that has been produced on the Boston stage for many years. The lines are clever, the music is tuneful and snappy and the cast includes some of the cleverest entertainers on the American stage. It is one of those shows that a person can see half a dozen times and enjoy as much the last time as the first.

"The Dressmaker from Paris," in which fourteen international beauty models appear, attired in latest creations, is the feature film that will be shown at the Fenway Theatre beginning next Saturday and continuing for a week.

Winners of the tickets offered for best 'last lines' to today's limerick will have an opportunity of witnessing this spectacular film.

Among those featured are Beatrice Joy, Ernest Torrence, Mildred Harris and Allan Forrest. The remainder of the bill will be in keeping with usual Fenway standard.

Remember, fans, you have until midnight tomorrow to get an entire original limerick to the Boston Evening American's office to compete for the extra prize of one box containing eight seats, at the Wilbur Theatre.

As previously stated, the subject matter of this limerick must be "Jesse James." The theme may include reference to the Western bandit of that name or the modern female heart bandit around whom the plot of the musical comedy at the Wilbur revolves. All original limericks in this feature of the tournament should be addressed in one corner of the envelope, "Special Jessie James Limerick."

COMMISSION TO STUDY MUSCLE SHOALS PROBLEM

Washington, March 27.—A commission to study the Muscle Shoals problem, consisting of former Representative McKenzie of Illinois, former Senator Dial of South Carolina, Professor Harry A. Curtis of Yale, William McClellan of New York and Russell F. Bower of the American Farm Bureau Federation was named today by President Coolidge.

The commission will determine the most practical method of utilizing the facilities available at Muscle Shoals.

Spayed	2
Breeders'	
(Not in excess of 5 dogs)	25
(In excess of 5 dogs)	50

Fee in all cases to accompany application.

HERBERT A. WILSON,
Police Commissioner.

EXHUME BODY OF DOCTOR IN GERM DEATH

Chicago, March 27 (A P.)—A second exhumation in connection with the McClintock death mysteries was made today when the body of Dr. Oscar Olson, who died three years ago, was raised from the grave for an autopsy and coroner's inquest.

A third exhumation will be made later when the body of Mrs. Emma McClintock, who died sixteen years ago is raised.

The bodies are to be submitted to the same chemical tests for evidences of poisons or other causes of death as in the case of William McClintock, the orphan millionaire, who, it is charged in an indictment naming William D. Shepherd, the youth's foster father and heir by a will, and C. C. Lauman, head of a school of science, met death by the inoculation of typhoid germs. Shepherd is in jail and Lauman is held in custody by the State's attorney.

POLICE SEEKING RELATIVES OF SUICIDE

Springfield, March 27.—The body of a well-dressed man, found on the river bank at Longmeadow with his throat and both wrists cut, is believed to be that of A. C. Loud of Fort Benton, Mont. and the authorities in that place have been notified.

While the police believe the man committed suicide, they are investigating the case. An expensive hand bag containing toilet articles and clothing were found near the body. The man's watch and money were undisturbed. He had apparently been dead about 10 days.

Acquitted of Slaying Recluse

Hull, Que., March 27.—James F. Carey of Perkinsmore was acquitted of the murder during the Xmas season of Joseph Bouchard, aged farmer who lived alone at Glenview. Bouchard's body, with a bullet wound in the back, was found January 3 in the cellar of his log cabin.

EXTRA PRIZES FOR X-WORD

There is another good opportunity, Crossword Puzzle fans.

Ten extra prizes in the form of pairs of best orchestra tickets for the Fenway Theatre for next week are offered for neatly arranged correct solutions of today's puzzle.

Those who win these tickets will have an opportunity to see fourteen of the world's most famous beauty models who are featured in "The Love Master From Paris," which is to be shown at the Fenway Theatre next week. This famous Lucky Tiger has won its fame among women. The fourteen international beauty models who appear in the film are personally selected in the Latest Parisian creations.

This is not merely a fashion film but also a romantic drama in which Jeanne Joy, Percy Marmont, Mildred Harris and Allan Forrest appear.

James McShane Jr. of No. 155 Washington road, Brookline, who is attending St. John's Prep School, Danvers, is one of the American's most ardent crossword puzzle fans. He writes as follows:

"First of all, I shall thank you a necessity for both the five dollar and the one dollar rewards which I have received during your daily crossword contest. The contest surely is going on the Fair and Square. I am only fifteen, but the American certainly is my favorite and my fam ily favorite newspaper. You have a host of friends through your daily crossword contest, and I hope that you continue to do so."

Mrs. Julia V. Doe, of No. 15 Columbia avenue, Beverly, writes as follows:

"Let me thank you for the check which I received as a prize for working your Crossword Puzzle No. 12. You may believe it was also a big surprise as it was the only puzzle I ever sent in, although I have worked them all of them. I have never missed reading your paper. There is something to look for on every page, and after it has been read the puzzle makes a good ending. Thanking you again for the check and also for a good many hours of real enjoyment."

EUROPE'S FINEST FABRICS IN HART SCHAFFNER & MARX CLOTHES

THEY certainly weave beautiful woolens over in England and Scotland. The art is handed down from father to son—it has been for generations.

Fabrics from such mills have always been a great feature with Hart Schaffner & Marx; they have used them in large quantities. Because of the increasing demand for better clothes they have established resident buyers over there who search out the best looms and keep the new things coming here in a continuous stream; new weaves, new patterns, new colorings. No one imports more of these fine goods than they do.

There are the lustrous Arundel worsteds so sought after by exclusive tailors; the soft Cawdor Saxonys famous for their drape; sturdy Dunmorlin tweeds for golf suits and the Four Winds topcoat. Those are only a few. There are many others; all of them good—as good as the style and tailoring Hart Schaffner & Marx put into their clothes.

You are going to hear regularly about the new fabrics and styles Hart Schaffner & Marx are creating. Soon there will be an important announcement about a new development in color. Watch for it!

SHEBO — The Girl Who Became a Boy — by Tiffany Wells

A Virile, Human Story of a Girl of Today

The Story Thus Far

J. B. HARDIMAN owned the house at Ryeneck. Mrs. Nancy Adams lived in it. Overnight, Barbara Brown found herself strangely mistress of the house. Hardiman summoned Barbara's landlady and whispered certain instructions to her. Then Kurt Schoure came to the house to talk over his symphonic tone poem, only to find that Mrs. Adams was gone. Barbara wrote to her father in the South Seas. Nan's husband stole the letter and suggested that they blackmail Hardiman.

She struck with all her 120 pounds, right on his chin.

"I WANT to play with you. Together"—his voice rose lyrically an octave in enthusiasm—"together we can shake him for a million. What's the word, lady?"

"Blackmail," she stated succinctly, her voice calm as stored dynamite. "Another ugly word, Mr. Adams."

"Words are ugly," he shrugged. "But they're only words. Poverty is an ugly fact."

"You say," she asked curiously, "that Hardiman would give money for my letter?"

"Would he!" His laughter was a shout. He held the letter before him and quoted from it. "'Hardiman didn't paw or snort, except in his eyes. . . . Hardiman shall own of me just what he can take . . . .'" He gripped her arm. "Honest, Shebo, we could write our own check. He'd sign it, then he'd throw you out."

She shook her head. She was so quiet that he mistook her emotions.

"I'm all set," he cried. "Solitaire or cards for two. I've got your letter in an envelope, addressed to Hardiman, special delivery, all ready to seal and mail. That's if you force me to."

Continued on Page 21, Column 1.

All charge purchases made during the remainder of this month will be entered on the April bill rendered May 1.

BOSTON EVENING AMERICAN

A HOME PAPER FOR THE PEOPLE WHO THINK

BOSTON, FRIDAY, MARCH 27, 1925

SECOND SECTION

NEW FIRE BOXES ARE DENOUNCED

Page Henry Ford! Railroad to Be Given Away

NEW FIRE ALARMS 'TOO EASY TO PULL'

The proposal of Mayor Curley and Fire Commissioner Glynn to install fire alarm boxes of a new type throughout Boston has aroused a storm of protest from the officers and men of the Boston fire department.

The new type fire alarm boxes will constitute a constant and permanent invitation to small boys and addlepated citizens to turn in false alarms, just for the fun of seeing the apparatus dash up, the firemen declare, and investigation has proven the correctness of their contention.

As a result of this open protest of the firemen, plans to purchase the new boxes have been held up, and it is probable that a campaign of education in the use of the present boxes will be substituted.

INVESTIGATED NEW TYPE.

When a girl lost her life in the Scobey Hospital fire in the Back Bay, because a man opened the door of a fire-alarm box, but neglected to turn in an alarm by pulling the hook, inside the box, public sentiment demanded a newer type fire alarm box.

The Mayor and Fire Commission investigated the latest type of semi-automatic boxes and practically decided to have such installed.

To turn in an alarm at one of the boxes now in use, the front door of the box must be opened, which starts an auxiliary bell to ringing, and the hook inside the box must be pulled down.

The bell which rings when the door of the box is opened, has no connection with the fire alarm system. It is There simply to notify a policeman or anyone else in the vicinity that someone has opened the fire alarm box. Unless the hook inside is pulled, no alarm will be turned in.

The new style box, which it was planned to adopt, has no door. There is a handle on the front of the box, under which is a glass bulls-eye.

When the handle is turned, the bull's eye is turned back, revealing in plain sight a small hook, on which are printed instructions to touch or jiggle the hook. Almost the slightest touch on the hook turns in the alarm.

PURCHASE HELD UP.

"Almost every kid and thousands of men who still [illegible] on the impulses of boys, would be constantly tempted to turn in an alarm with the new boxes," declared one veteran captain of the fire department.

"There is an average of two false alarms a day turned in with the present boxes. The ease [illegible] to turn in an alarm, the more false alarms we will have and they cost a pretty penny in [illegible] firemen and less work and danger than is [illegible] necessary.

The Mayor and Fire Commissioner are taking heed of the protests and no move toward the purchase of the new boxes will be made for some time, at least.

SWAMPSCOTT MAN HELD AS CHECK FORGER

Arthur F. Hill of No. 161 Paradise road Swampscott, is being held in the Swampscott police pending extradition proceedings after which he will be turned over to the officials from Rochester, N. Y., where he is wanted on charges of forgery and grand larceny.

Hill it is alleged obtained a position as salesman with a Rochester shoe firm, under the name of Andrew T. Murphy, a fact he stated. It is alleged that in Rochester he secured Murphy's [illegible] $500 worth of [illegible] [illegible] stored in Vanity and Wardrobe and was arrested upon [illegible] complaint.

GETS $11,815 A MONTH, BUT WORKS AS COOK

Cincinnati, March 27.—After Martin Erickson had thrown himself from a sixth story window his wife, Minnie, told police she was working as a cook in Cincinnati only for the purpose of hiding from her husband whom she left in Chicago. He became from an apartment building in Washington was $11,815 a month, she said. Erickson's skull was fractured. His condition is critical.

'BOOTLEG KING' ARRESTED IN SWAMPSCOTT

The first arrest in a cleanup of Swampscott bootleggers and rum-runners launched several days ago was effected today when John Magnus of Newton, a self-styled "King of the Bootleggers," was taken into custody charged with assault with a dangerous weapon.

Magnus was arrested by Deputy Chief Callahan and Patrolman Reeve, the two officers heard in Swampscott by the Essex county grand jury.

In Lynn District Court, Magnus later pleaded not guilty and the case was continued to August 7.

The Newton man is charged to have threatened Harry D. Lloyd of Lynn on the night of November 28 after Nahant Coast Guard men seized a boat carrying 60 cases of Swampscott Home with Beer. Lloyd, who was in the front seat of an automobile in which the apprehended were riding, when Magnus is declared to have pointed a shotgun at him and exclaimed, "Now, I've got you."

Magnus was held that night at the Swampscott police station, and charges that Police Chief William L. Quinn took $2,000 away from him, which Quinn later refused to return.

Magnus has begun civil suit against Chief Quinn to recover the money.

2 LANDLORD-TENANT BILLS SPIKED BY FULLER

Two anti-tenant bills recently enacted through the Legislature have been spiked by Governor Fuller.

Under the law as it exists may be terminated by a 6-month day notice for non-payment of rent. The two bills which reached the Governor and were vetoed, on the contrary would have put the period to seven days.

The bills were filed by Representative Francis E. Gooch, Democrat of Webster, on his own petition.

VAHEY TO AID CARMEN OF N. H. IN WAGE FIGHT

Manchester, N. H., March 27.—Attorney James H. Vahey of Boston, representing the Amalgamated Street Railway Workers, who confer with officials of the Manchester Traction, Light and Power Company in an attempt to iron out differences between the company and the men. The latter are seeking a 48-hour day and higher wages.

Train Kills 3 Autoists

Long Beach, N. Y., March 27.—Three persons were killed and a fourth was seriously injured when a touring car in which they were riding was hit by a train crossing by a Long Island passenger train near the entrance to Point and Park.

JINGO MISSES MOUSE; NEARS INKY DEATH

The mice of catnip fell off throughout the city today, while the figures for the daily average consumption of water and soap rose mightily and perceptibly.

Regarding about for a reason, it was discovered that the old wheeze about nobody being able to change a leopard's spots had been admirably refuted by Tom Jingo—when is not an exclamation but a pause.

Previously, though Jingo is at present in a rum shop, when he is arrested at sea, and he is down on the payroll as

"Jingo, rat and mouse hunter; press room scurry—fish, flesh and fowl, and some milk." There is no mention of his hammer, which is an odd omission.

Jingo is the terror of Winthrop square and points North, South, East and West. Sometimes he puts in a day or so as a terror there when the opportunity presents.

REAL NEWSPAPER CAT.

In addition to being a terror Jingo is also a cat. He is of real newspaper caldom, of the blackest and reddest Boston Evening American stock.

Since last July Jingo has had a rather soft time of it, taking it all in all. The new Hearst building is rat and mouse proof, but someone must have brought a mouse into the building early today in a ham sandwich or something, for Jingo at last was given some real work to do.

He got on the mouse's trail and then was off hunting with slit nose flaring in every direction to get a whiff of the land in a rear guard and to that sort of thing.

For a few wounded minutes it looked as if he'd taken a button eye. Then he figured that as long as he was sore he had nothing to fear, and so got straight forward.

The mouse hadn't gone a few feet, inside an inviting fore, Jingo knew then that an intruder had come to town, for all mice in the city hurt of a pursuit are born and bred to stay.

FAILS TO GO OVER TOP.

Likewise Jingo shifted into the air for high, and the chase was on. Around and around the press room the race led, while the pressmen cheered.

Then came a hazard in the course in the figure of an ink barrel and Jingo was unable, in the excitement of the chase, to calculate whether he could leap over the barrel or would alight just at about the spot occupied by the mouse, who had gone around.

Jingo leaped nobly, but he had overestimated. Down into the black depths he plunged and his calico fur was literally out in a stygian tunnel while the mouse chortled in safe away.

Then, fished him out with a hook, the brave pressmen and restored him to the Angel Memorial Hospital for a good pumping out.

With the last mouse Jingo when he will have a record of ink, but the execution was all wrong.

Very soon Jingo is red, while it was both.

JAZZ BRINGS JOY TO VETS

The disabled World War veterans at the West Roxbury Hospital to a man deserted the great outdoors to listen to the fifth Boston Evening American program rendered by the Jamaica Strand Ballroom Orchestra. The players are: Front row (left to right) Bert Myers, conductor, and John Ventre; back row, Tony di Pietro, Julian Friedman, Oliver Killam, Hyman Yerkes and Arthur Koller. George Curran of the Governor's Council (at lower left) who praised the work being done for the veterans by the Boston Evening American and Miss "Frankie" Morris, entertainer.

MUSIC PROGRAM BY BALLROOM ORCHESTRA

Entertainment de luxe thrilled the World War veterans at West Roxbury Hospital in the fifth Boston Evening American program.

With the first strains of "O Kalena," from the brass and strings of the Jamaica Strand Ballroom orchestra, the ex-soldiers deserted the playground to which a balmy Summer day had called them, and thronged 200 strong into the Hall Queen reception hall.

The orchestra and accompanying artists were brought to the entertainment at 9 o'clock by the Town Taxicab Company.

Following the jazz orchestra came Art Spaulding, his wife, Mrs. Marie Rossiter, and Miss Marguerite Bass of the Metropolitan Opera Company of New York, and Herbert Hewson, who rattled the keys for Jerome H. Remick & Co., music publishers.

This array of talent got well around the Strand orchestra to-

gether with the orchestra itself, proved the proper menu for the appetites of the veterans. They wanted more and got it. Mrs. Bass scored a great hit.

George Curran, member of the Governor's Council from Boston, finished with a speech in which he revealed the vets that they had never once been forgotten by the Evening American. He said James M. Wilson, Jr., new editor of the American, has constantly proved himself one of the staunchest friends of the veterans in the entire country.

Next came the jazz band Art Martin's players who have become popular with "I'll Say She Is," the Three Mara Brothers show at the Majestic Theatre. The band is called by critics one of the best on the stage and the veterans seemed to think so too. Miss Frankie Morris explained that the boys call her that because she likes to have them rassle and followed with some catchy tunes, vaudeville

METHODISTS IN FAVOR OF UNIFICATION

Fall River, March 27.—The Southern New England and Methodist Episcopal Conference today approved the proposal for unification of the North and South bodies of the Methodist Episcopal Church. The clergy voted eighty-four in favor of unification and one against.

The layman favored the proposal by a vote of seven to one to one.

The single clerical vote against unification of the Methodist Episcopal Church North, with the church of the South, was cast by a South-erner, Rev. Guy W. Holmes. He is pastor of the Hills Grove, R. I. church.

On the question of admitting laymen as members of annual conferences the vote was 101 for and 56 against.

Washington, March 27.—The Baltimore district conference of the Methodist Episcopal Church South was drawn into turmoil today when the question of unification of the

Northern and Southern branches was brought to the floor.

The legality of action of Bishop Warren A. Candler of Atlanta in forcing a record vote on unification was attacked, and the right of four delegates to vote challenged. Unification was defeated by 141 to 137.

Norristown, Pa., March 27.—The Lay Electoral Conference of the Philadelphia Methodist Episcopal conference today voted 160 to 8 for unification of the North and South churches. The laymen by a vote of 149 to 20 also favored the admission of laymen to the annual conference

Pet Saves One Man; Nearly Kills 2nd

While the barking of his dog called neighbors to the assistance of Haven Emery, who had fallen unconscious in the road on the outskirts of Dover, N. H., the pet cat of Harry Lewis some fifty miles away, in Dover, N. H., turned the valve handle while jumping off a gas range and nearly caused Lewis to be asphyxiated, Lewis' son found him unconscious, Emery is recovering from pneumonia following his exposure.

LORD RAWLINSON NEAR DEATH AFTER OPERATION

London, March 27.—General Lord Rawlinson, commander-in-chief of the British army in India, was reported sinking today after an operation for appendicitis. Lord Rawlinson was a member of Army Council in 1918 and has been commander in chief in India since 1920.

KEENE TWIN IS REPORTED WED TO RICH MAN

Dancer Said to Be Bride of Elliot Holt, New York Society Man

By CHOLLY KNICKERBOCKER

New York, March 27 (U. S. Staff Correspondent).—The town bussed with the insistent report that the very presentable Elliot Holt, son of the senior Henry Holt of East Seventy-second street, had married on Wednesday one of the pretty Keene Twins, who have graced a number of Broadway musical productions and who closed their season with the "Greenwich Village Follies," in Boston recently.

When asked to confirm the report Elliot's mother declined to admit the wedding had taken place, and added that when it did take place she would notify the press. At Elliot's office the young lady at the switchboard was the authority for the statement that Elliot was in the Massachusetts Center of Culture, Boston.

The junior Henry of the Holt family, who married a few years ago Elizabeth D. Cabot, insisted he knew of no marriage between his brother and the light-stepping Miss Keene, and when I chatted with both of Wendell P. Keene's daughters, they also were vehement in their denials of the wedding story.

Man Breaks Arm Playing Marbles With Aged Pal

Petersburgh, Neb., March 27.—Spring is surely here. Rube Wideman broke his arm today in a game of marbles with Jens Kyvam. The accident occurred in the scramble to see who would shoot first.

Both men are over sixty years of age.

RICH GIRL'S DAY DESCRIBED BY EDITH GOULD

Program for Children of Wealth From 7:30 to 7 Was Exacting

Continued from Third Page.

breakfast, that consisted of orange juice, cereal, bacon and eggs, whole wheat rolls (white bread was never served to the children) and milk. The milk was served at the temperature of the room.

The next step would be to bid good morning to our parents in their bedroom, where we would remain until it was time for our first lesson to begin. Chairs and tables were placed on the terrace back of the house and there we repaired with the teachers.

Loves Italian

The first lesson for me in the morning was German. This is a language with which I early became familiar, knowing how to write the German script even before I could use our own alphabet. German continued for an hour, after which French was the subject. Italian, my favorite foreign tongue, was the next subject.

Through the eloquence of Signorina Clelia Fiorillo, successor to Signorina Lucci (now Mrs. Kingdon Gould), I acquired a love for things Italian—people, literature, art and scenery.

In order to give us a chance to stretch our limbs and rest our minds, a 15-minute recess followed. This we spent in playing tag or hop scotch or in amiable discussion.

At last we were free to speak English for a few minutes, although so thoroughly were we schooled in linguistics that foreign words kept creeping in.

Miss Cortis general supervisor of education, whom the children affectionately called Aunt Carrie, would try to teach me the complexities of arithmetic. I say tried advisedly, because, in spite of her most painstaking efforts, practically nothing but the rudiments of the study remains. I hate it. Twice a week arithmetic was supplanted by a piano lesson which was equally detested. I love the piano—when someone else plays it.

Luncheon at One

At 1 o'clock we had luncheon. When mamma was home and was not entertaining visitors we would eat with her in the large dining room. This gave her an opportunity to question us about the progress of our studies. Luncheon consisted of soup, a meat course (veal and pork were never given to us), potatoes provided they were not fried, a vegetable such as turnips, of which mamma was particularly fond, or string beans, parsnips or squash, sometimes a salad and a milk pudding of one sort or another.

All this food was prepared in the plainest manner, free from highly seasoned sauces. Rich foods were under no conditions given to us and our first acquaintance with the elaborate French cuisine came only when we had grown up. When we ate with mamma this plain food was served with all the dignity of state by William Bastop, the butler, upon silver platters. What a contrast! Food for a royal feast that eaten by most persons of modest circumstances on ornate and expensive silver platters.

And by the way, my mother had the same menus as the children, disliking fancy foods. She preferred English cooking, although she did employ French chefs because of my father's predilection for that cuisine.

Nap After Lunch

We lay down for half an hour after lunch and then were free to put on riding habits and canter through the countryside for an hour or so. A plunge in the swimming pool usually followed. After a half-hour of water sports we dressed for the afternoon in white lingerie dresses with ribbon sashes. We were allowed to do pretty much as we pleased then but Gloria and I frequently spent the time with our mother in the Adam room, where she received tea to visitors. The children were not permitted to drink tea or coffee.

Supper at 6 in the nursery dining room was made up of a cereal, a boiled egg, milk and some stewed fruit. This was my supper until I was seventeen years old. The elders had their dinner at 8:30.

Our supper period during the early days of the war was much enlivened by spirited conflicts of nationality. Merits and demerits of European countries were loudly proclaimed in three languages. Feelings were frequently hurt.

To Bed at Seven

Fraulein Schacko, the most sensitive of the governesses, never permitted animosities to interfere with her dessert. On several occasions she threatened to leave the table, but always waited until the pudding or stewed fruit was served and then carried it out with her, throwing over her shoulder contemptuous glances at the Eiderne Cordiale. Yet in spite of the bitterness of the struggle waged abroad none of the governesses left the household because of nationalistic feelings.

After supper we sat for half an hour with mamma while she dressed for dinner. At 7 we started for bed and lights had to be out at 7:30.

In the next article I will tell about how the children were clothed and something of my mother's gowns and jewels.

Accurate **RADIO PROGRAMS** Easy to Read

ALL ROUND THE RADIO CIRCUIT

Among all the legends that lie in the treasure-house of the past, there is none that gains more—as time goes by—than the story of the Pilgrim Fathers.

In all the great and dreadful story of mankind there is nothing that holds more of human courage, and human hope and human struggle than the history of that little band of men and women who, on the bleak edge of an unfathomed wilderness looked the great forces of untamed nature in the face, consigned to live it—not humbly and in fear, but in a militant assertion of their faith in God and in the future that He held in store for them.

They were poor—penniless in riches, and in strength—but the richest and most powerful nation of the world turns to the story of their struggle as its noblest memory, as the birth of its indomitable spirit, as the bantism of a people who, from then till now, have fought and conquered for what they thought was right.

As time goes on we feel more and more tenderness for the small incidents that marked that defiant invasion of the wilderness, and for the stories of human love and hate of triumph and failure, that bring it to us. So that tonight, when the Hingham Light Opera Company will broadcast the two act operetta "Priscilla" from Station WNAC, at 8 o'clock, there will be an enthusiastic audience to listen to them. This is the second presentation of the operetta, the scene of which is laid in Plymouth, Mass., in 1620.

A special "pastorale programme" will be transmitted from WEAF this afternoon by a new society, the Children of the American Revolution. The object of this society is to create a deeper love of country, loyal respect for its constitution and reverence for its flag among American children. The guiding spirit and founder is Mrs Daniel Lothrop, and an address will be given by Mrs. Henry Norton McDowell, State director of the society in Massachusetts.

BOSTON AMERICAN SPORTS

100 RING BOUTS CARDED FOR N. E. TITLE TOURNEY TONIGHT

JASSE AND ADONIS MAY BATTLE

By JACK CONWAY.

THERE will be one hundred bouts at the New England amateur boxing championships at Mechanics Building tonight.

One hundred and forty-five boys will battle for honors in eight classes, namely 112, 118, 126, 135, 145, 160 and 175 pounds and in the heavyweight division.

The first contest will start at 6 p. m. It will be close to 4 a. m. before the final sock has gone whizzing through the air.

Every amateur boxer of note in New England has entered. This is due to the fact that only the winners of tonight's bouts and a few of the runners-up will be permitted to compete in the national amateur boxing championships which will be staged at the Boston Arena next month.

Interest centres around the 147-pound division. Bob Jasse and Eddie Adonis, two of the leading amateur mitt wielders in New England, will be the chief contestants in this division.

Joe Monte of Brockton, a light-heavyweight star and winner of the heavyweight class at the International tourney, is the favorite in the 175-pound division.

James Madden of Roxbury is picked, to come through with a victory in the heavyweight division.

Jim Morello is a favorite in the 112-pound class, Phil Flanagan in the 160-pound division, while in the 118 and 126-pound classes there is considerable difference of opinion as to which boy will come through with a victory.

* * *

Star Preliminary Card for Slattery-Ratner Go

MATCHMAKER EDDIE MACK of the Commercial Club has three brilliant ten-round preliminary bouts billed for the Jimmy Slattery-Augie Ratner feature at Mechanics Building on next Monday night. The preliminary bill follows:

Tony Carney, New Bedford, vs. Lew Perfetti, New York.

Honey Boy Finnegan, Dorchester, vs. Eddie Williams, East Boston.

Matty Cordes, Lynn, vs. Johnny Harko, Manchester, N. H.

Pal Reed Takes Place of Lou Bogash

PAL REED, Framingham middleweight, will take the place of Lou Bogash against Billy Britton of Kansas City in a ten-round bout at Allentown, Pa., on Monday night. Bogash was obliged to withdraw from the tussle on account of injuries he received in his tussle with Tiger Flowers in this city.

Reed will probably be signed to tackle Tiger Flowers and Paul Berlenbach in bouts at local clubs.

* * *

Suffolk A. A. Must Revamp Fistic Menu

THE Suffolk A. A. is seeking a suitable opponent for Johnny Wilson, former world's middleweight champion, for its show at Mechanics Building on next Friday night. Dave Shade was originally billed to meet Wilson. The Boxing Commission ruled that Shade must first go through with his tussle with Bob Lowrie for the Commercial club before he tackles Wilson. Matchmaker Tom Goodwin of the Suffolk Club is in New York and expects to secure a suitable opponent for Wilson today.

FUTURE DEMPSEYS READY

James Madden, Roxbury heavyweight, is depicted on left with Bob Jasse, 147-pound man, on right. Below is photograph of Eddie Adonis, another bright light in the 147-pound division. These boys will do their stuff at Mechanics Building tonight

ONLY FIVE VETS AVAILABLE FOR EVERETT HIGH

Only five veterans are available to Coach George Brickley of the Everett High school baseball team for the coming season. These are captain DiVenuti, Mortenson, Di Mott, Mr Quiggle and Rice.

Di Mott will go behind the bat as first string catcher, Rice will play right field and Di Venuti will hold down one of the infield berths. The Everett pilot, Rita Mortenson, is one of the hardest hitters in the squad.

The squad is working out daily under the direction of Brickley and although the coach realizes his task is a great one he expects to be able to whip together a presentable nine for the opening game with Rindge Tech on April 20.

The schedule:

April 20, Rindge at Cambridge; 25, Newton; 29, Lawrence at Lawrence. May 2, Cambridge Latin; 6, Somerville at Somerville; 9 Malden; 13, Brookline, 16, Medford; 20, Rindge; 23, Newton at Newton; 27, Cambridge Latin at Cambridge; 30, Somerville, June 3 Malden at Malden; 6 Brookline at Brookline; June 10, Medford at Medford. All games scheduled for home grounds unless otherwise mentioned.

SCHOOL NOTES

Among the candidates out for pitcher on the Quincy High nine are: Jim Fanchar, centre of the basketball team who scored the largest number of points during the season, Ed Collagan, Parrish, Dennison and Canning, all new material. Captain O'Brien is hitting the pill so hard that he lost two balls recently. Nichols, a veteran, is also showing up well at the bat.

"Wally" O'Brien, who graduated from Quincy High in February, and who was among the basketball stars at school, is now playing with St. Joseph's five of Quincy.

Quincy High basketball team, which won 17 and lost but one game in the past season, will be tendered a reception in the school gym this evening.

Dorchester High's nine has 19 games booked for the coming season.

The grounds for the home games has not been definitely decided upon as yet.

The schedule: April 18, Burdett (evening); 22, Middlesex at Concord; 29, Boston Trade; May 4, Brighton; 6, Allen Military at West Newton; 8, Milton High, at Milton; 13, Cambridge at Boston; 14, Boston English; 18, Hyde Park; 20, St. Marks, at Southborough; 22, South Boston; 25, St. James, at Haverhill; 28, Rindge Tech; 29, Mechanics High; 29, Quincy, at Quincy; June 1, Boston Latin; 4, Charlestown; 9, Jamaica Plain; 12, Boston Commerce.

An invitation to participate in a triangular track meet with Lowell and Manchester, N. H., High Schools was turned down by the Lawrence High authorities.

The Maynard High School is to be represented this Spring with a strong track team, Edward Coughlin of the faculty is coaching the team, and Tom King is assisting. The opening meet has been booked for April 8 with the Leominster High School at Leominster. There is a meet with Fitchburg High at Fitchburg on May 7 and with Leominster at Maynard on May 9 and with Marlboro High at Marlboro in June.

Pat Creedon, Brockton High's star athlete in baseball, football and basketball, has decided to give another year to Brockton High. He will be eligible until half of the 1926 baseball season is completed. Coach Roberts will have but three veterans back for football, but with Creedon available much of the backfield worries will be over.

Bob Hall, Brookline High's sensational hockey star who was accidentally hurt this Winter in the Melrose game, has been named captain of the team for next Winter. Hall, after the school season closed last Winter, played for the B. A. A. team.

FOOTBALL RULERS WILL NOT MEET AGAIN IN '25

Wheeling, W. Va., March 27.—The National football rule committee which adjourned its meeting in New York recently upon the death of Walter Camp will not assemble again this year, according to E. K. Hall of Montclair, N. J. Hall, who is chairman of the committee, spoke here last night.

37 ELIGIBLE FOR TITLE SOCCER GAME SUNDAY

By GEORGE W. GRIMM.

Thirty-seven men have been declared eligible to compete in the soccer tussle at Mark Stadium, Tiverton, R. I., Sunday afternoon, when Fall River faces Boston in the final match of the American League Challenge Cup competition. Sixteen will hail from Fall River and twenty-one from Boston.

The winner of the game will compete against the Ben Miller F. C. of St. Louis in a series of four-game matches. The first encounter in this series is booked for St. Louis on April 5.

Both Boston and Fall River are blessed with a mighty fine roster, most of the players being internationals who have gained honor on the pitches across the sea.

MANY INTERNATIONALISTS

On the Boston team are W. Bullantyne, Tom Fleming, J. Mathers, T. McMillan, Alex McNabb, B. Battles, J. McIntyre, W. McMasters, H. Lorimer, J. McArthur, J. D. Grant, T. Muirhead, J. Ballantyne, David Sharp and Thomas Steele, all of Scotland; Mickey Hamill of Ireland, Walter Black from Slam and Andy Stevens from England.

Fall River can boast of two American boys, namely, Fred Wall and Joseph H. Marsh, but the rest hail from abroad. The list included D. Campbell, J. Reid, A. Kemp, A. Lorimer, W. Freyer, T. Raside, H. Gowan, P. Kerr, W. McPherson and F. McKenna, all of Scotland; F. Morley, W. Freyer, E. Tate and Captain H. P. Brittan of England, and Thomas Quest of Ireland. All the above mentioned players are professionals. The Boston team, however, carries along three amateurs in Neil Hart, Mathew Dickie and John Christian.

At least 8,000 will go from Boston for the game. Automobiles and busses will bear some 3,500 or more, while the New Haven road has made arrangements to take another 3,000 over the rails.

20,000 FANS EXPECTED

There is no question in the minds of any of the soccer experts but that this game will bring out the largest number of fans ever to witness a soccer contest in New England. Mark Stadium is ready to hold at least 20,000 fans and it is likely several thousand more will be turned away.

The winning team will not only defend the East on the pitch, but will receive the reward of a handsome trophy presented by H. Edgar Lewis of the Bethlehem Steel Corporation.

Fall River has had a better record than Boston in the American League but there are many who expect the local aggregation to come through as they have done time and again in the past.

BASKETBALL MAY BE DISCONTINUED AT B. C.

It is feared at Boston College that basketball may be discontinued as an official sport. The last two court seasons were disastrous, financially. This is given as the reason for the belief that the sport is doomed.

Eddie Harrison, of Brooklyn, N. Y., who was captain of the Eagle five during the past season, had the distinction of not playing a game all year. Eddie injured his shoulder and neck during the last football season and was kept on the sidelines throughout the hoop season.

Andy Carroll of Dedham, who was acting captain, was expected to lead the quintet next year. But now, despite the fact that a veteran five would be available, is doesn't appear as if the sport will be recognized in the future.

Interclass Baseball League Starts

The B. C. interclass baseball league, sponsored by the "Heights," the college weekly, is in full swing. Each class nine will play three games with each of the other class teams and the paper will present two tickets for the Holy Cross-Boston College game at Boston May 16 to the six leading batters in the league. The two leading infielders and outfielders will also be presented with a pair of tickets.

Two of the freshman candidates for the varsity nine are heading toward three-letter fame. They are Freddie Moncevica, shortstop, who hails from Brockton, and "Bo" McManiman, a B. C. High star, who is doing a lot of the heavy work behind the plate. Both saw action last Fall during the pigskin season, and loss a mean basketball as well. "Bonny" Foley is the only 3-letter man in college at present.

Plestina Signs to Meet Gardini in Hub Mat

Martin Plestina, the Bohemian grappler, has been signed up to meet Ike are Gardini in the semi final bout of the big wrestling tournament to be held at the Arena next Tuesday evening.

Alex McLean, who is promoting the show, is angling for Strangler Lewis to meet some worthy opponent, possibly Wladek Zbyszko, in the final bout.

The opening bout will bring together George Kotsoures, the Greek, and Frank Judson, former Harvard instructor.

Bouts Last Night

At Salem — Pat McGettigan of Roxbury scored a technical knockout over Jack McDonald of Chicago at the end of the sixth round. Burt O'Neil of Boston knocked out George Allen of Malden in the fourth round. Young Finch of Marblehead got a decision over Baller Mercurio of Salem after eight rounds. Jerry Vitale of Beverly knocked out Dominic Verrete of Boston in the first round. Red" Sobrosky of Salem knocked out Buff Sears of East Boston in the first round.

At Lowell—Harry Martin of Providence won the decision over Johnny Marks of Bridgeport, Conn., in the ten-round bout.

At Lewiston, Me.—Harry Goldstein, Boston, and Frankie Keizer of Lowell went six rounds to a draw.

At New Haven—Lieut. Earl Baird, California lightweight, outpointed Georgie Day, New Haven, six rounds.

EHMKE, 6 POUNDS HEAVIER, LOOKS FOR BIG SEASON

FOHL ENTHUSIASTIC OVER CONDITION OF SOX BOX MAINSTAY

By FRED C. LANE.

New Orleans, March 27.—The splendid physical condition of Howard Ehmke, premier pitcher on the Red Sox squad, is cause for much joy in camp this Spring. Not that Howard has yet reported out of shape or was unable to take the hilltop in turn but the fact that this year the big fellow is six pounds heavier than last, is the reason for this merriment.

Lack of weight has been Ehmke's big drawback. When hot weather set in each year his effectiveness was seen to fade. This, he himself, attributes to his lack of poundage.

The former Detroiter is working carefully this year. He is on the ball field the same length of time as any other member of the squad but confines his work to light duties that he might have his strength for the opening game and the many that will follow.

Ehmke is a serious ballplayer. He has made baseball a life study and occupation. He leads the salary list at Fenway Park and intends to stay in that position just so long as the old soup bone will do its stuff.

SAME GOES FOR PLUNK.

The same situation surrounds Alex Ferguson. This boy is also in fine fettle. He is a veteran campaigner, although but twenty-seven years of age.

Last season Ehmke and Ferguson pitched in 67 games and with any sort of baseball luck the hurling averages of both should be better this year.

Manager Fohl is well pleased with the condition of both his dependable pitchers and entertains the same thoughts that they do, that is, with any kind of a break they will give the club a good start and chance to pull out of the rut.

Curtis Fullerton of East Boston is another who should have a big year. Fullerton in past seasons has been inclined to be listless but Boston fandom is sure to notice the change in this big fellows' hurling during 1925.

Because the club asked waivers on Jack Quinn, one of the oldest pitchers in the American League, rumors have been flying thick and fast that he might be turned loose. There is little or no chance of this taking effect this year. Fohl is still expert enough with the hurling staff and is well informed as to Quinn's capabilities.

COOL WEATHER HURLER.

Quinn is a cool weather pitcher Conditions last year forced Fohl to use him any time, and that was quite often.

Jack, for the veteran he is, pitched twenty-five games. Being a spit ball pitcher his effectiveness reels in the amount of saliva he get's on the ball, and as he perspires freely when working on a hot day, he loses his control and punch when the sweat runs down his arm to the first finger of his right hand.

The Feliciana received a taste of major league pitching from Jack Quinn and Curt Fullerton. The Boston hurlers pitched in midseason form, while their team-mates batted out a 5 to 3 victory.

Sunday will wind up the exhibition games in this city. A brigade of rookie players will leave Saturday night for Alexandria, La., to play the Alexandria team of the Cotton State league, managed by Pat Flaherty, veteran major league pitcher and one-time connected with the Boston Braves.

Rudy Hulswitt will lead this contingent Those making the trip will include: Williams, c f; Exzell, 3b, Tidy, 1b; Yarbo, l f Connolly, 2b Gaynan, s s; Winefield, r f; Pinnick and Stokes, catchers, Ruffing, Wiltse and Jamerson will do the pitching.

CATCHERS ARE PROBLEM FOR B. U. COACH

The B. U. battery candidates are now taking their turns in the box out at the Wentworth Institute field, after putting in three weeks at the varsity gym. Until Volkman field is in fit condition to play on the Terriers will probably continue practice on the Institute grounds.

Much is expected of Don MacDonald, the only veteran twirler back. Previous to his appearance against Harvard last year, MacDonald had never pitched a game.

The rookie who has probably shown the most promise to date is Jim Burke, former all-scholastic pitcher of Springfield. He has lots of stuff on the ball and plenty of speed. If he maintains the control he has been displaying, he should have a great year with the Terriers.

Third base will be played by a new comer, Red Ling, the hockey player, and Ken MacDonald are both capable of filling the position, and are going to make Shaughnessy work to keep the berth.

The outfield remains intact from last season, and it is doubtful if any new man will succeed in breaking up the trio composed of Captain John Sessler, Bob Kincaide and Bill Murphy, football captain-elect.

The catching proposition will probably cause Coach Law some concern throughout the season as he has no veterans to draw from. The likely looking rookies are Parker, D'Agostino and Mooney out of which he has hopes of finding at least two men to fulfill his requirements.

Higgenbotham at the keystone sack is one of the brightest spots in the whole nine. He is starting his third year at that position.

Terrier Boxers Hear Leonard

About 80 members of the Boston University boxing class went back stage at Keith's and listened to a interesting talk on boxing by Benny Leonard, the world's lightweight champion. Leonard made it plain that to be a champion, the boxer must not only know how to hit, but also know the science of the sport.

He said his best punch was the left jab, and illustrated it by a demonstration with one of the B. U. team. He also said that feinting was the one most important thing of all.

B. U. Rifle Team Shoots for Top

The B. U. rifle team continued its winning streak by defeating Oklahoma A. and M. College. The Terriers scored 8,589 against the Westerners 8,467 in a four position telegraph match.

40 NOW ENTERED IN B. A. A. MARATHON

Five more entries have been received at the B. A. A. for the Unicorn Marathon run on Monday, April 20. Those to forward blanks were: Henry Kanto, Enfield, N. H.; Ray Sharman, Danville, N. I.; James A. Graham, General Electric Club, Buffalo, and James Cleary and George Costarakas, both of the Dorchester Club. This brings the total list of entries to forty.

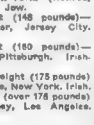
SPORT BROADCAST by JIM MURPHY

THE BOXING KINGS

With the exception of the fly weight division and disputed featherweight class the Irish and the Jews now have complete control of the major boxing titles. A Filipino rules the lightest division of all, the Jews are supreme in two of the next three and the Irish hold sway in the four heaviest classes. The championships are divided as follows:



Jack Dempsey.

Flyweight (112 pounds)—Pancho Villa, Manila, Filipino.

Bantamweight (118 pounds)—Charley (Phil) Rosenberg, New York, Jew.

Featherweight (126 pounds)—Johnny Dundee, New York, Italian. Kid Kaplan, Meriden, Ct. Jew. (Recognized only in New York.)

Lightweight (136 pounds)—Benny Leonard, New York. (Retired, undefeated.) Jew.

Welterweight (148 pounds)—Mickey Walker, Jersey City, Irish.

Middleweight (160 pounds)—Harry Greb, Pittsburgh, Irish-Dutch.

Light-heavyweight (175 pounds)—Mike McTigue, New York, Irish.

Heavyweight (over 176 pounds)—Jack Dempsey, Los Angeles, Irish.

* * *

THE "FEATHER" DISPUTE

The featherweight division will always remain in dispute until Dundee and Kaplan meet within the ring circle. Kaplan is recognized champion in New York. But outside of that State Dundee is still looked upon as king of the class. Six months ago Dundee, sailing for Europe, announced that he was resigning his title because he could not make the weight. An elimination tourney was held to pick his successor and Kaplan came out a winner by knocking out Danny Kramer, a former Bostonian, in the final bout. Then Dundee very politely announced that he was still champion and would make the weight and meet all-comers to prove it. His first bout since returning from Europe was against Red Chapman at Mechanics Building last Monday night. He weighed in at 131 pounds, five pounds over his class limit, and took a pretty pasting from the Chelsea boy Funny part of it all Chapman was not even considered when they were picking boys to battle for Dundee's title.

* * *

Speaking of nationalities, Tom Suwoong, a Chinese, has been elected captain of the Clark University Tennis team at Worcester.

* * *

QUITE A DIFFERENCE

The difference between a chronic headliner and a chronic tailender is best demonstrated by the respective cases of the New York Yankees and Boston Braves. The Yankees were paid a guarantee of $12,500 to train at St. Petersburg, Fla., and the Braves were given $3,500. The Yankees drew $16,000 in exhibition games at the camp. It will cost the St. Petersburg city fathers $8,000 before they get through but, figuring the vacation late that the two teams drew to the resort, it was worth it.

* * *

Twenty-five years ago yesterday Frank Erne took the lightweight championship from Joe Gans. Referee Charley White of Chicago stopped the bout in the twelfth round to save Gans from further punishment.

* * *

READY, GLOUCESTER!

Nova Scotia is getting ready for a resumption of the fishing schooner battles with Gloucester They have just launched Halifonian at Shelburne. W. L. Roue, the same man who designed the Bluenose, also drew the plans for the Halifonian. The vessel is all ready for its initial fishing trip.

INSIDE GOLF
By CHESTER HORTON
Maker of 51 Golf Champions, "Golf's most successful teacher," says "Chick" Evans.

It is a good idea not to experiment too much with grips. There are a dozen or more grips, any one of which is successful, but any player who tries to use all of them more or less all the time is going to get into trouble. All good golfers have one thing in common, besides their fixed method of play, and that is they use one grip continuously. Any golfer, however, can experiment with grips until he finds the particular one that best suits him. This he should be able to do in a few practice periods of fifteen minutes or so each. Begin with the wide open grip, commonly called the two-V. This has all the fingers on the shaft. From that work quickly through the overlapping and interlocking varieties until you find the one that feels the most natural and comfortable. That one will be your grip.

HARVARD CUBS TAKE ON YALE AT POLO

This Saturday night will mark the first clash between the Harvard and Yale freshmen polo teams. This will be the first year that the freshman polo'ers of Harvard have ever been represented by a recognized team. The Crimson team will consist of Shaw, White and Fenwick.

The game will take place at the Commonwealth Armory at 8 o'clock Saturday night. All the members of the freshman team have been substitutes on the Harvard varsity team during the entire season and as a result have developed a very fast team.

PEARLSTEIN IS MATCHED FOR BOUT WITH RIOUX

Yousell Pearlstein, the heavyweight champion of Palestine, has been matched by his manager, Sally Snyder, for a battle with Ebber Rioux of Montreal for April 6. This bout will be decided at Montreal and the distance is 15 rounds. Yousell and Rocky Stone, two local rivals, are also likely to clash in a local ring shortly.

HARVARD BALL SQUAD CUT TO 26 MEN

Fifty Harvard baseball candidates appeared on the freshman diamond for the first outdoor workout of the season.

Only twenty-six will report today, however, since Eddie Mahan finished his penning after practice.

Batting and fielding practice was the sole work for the players at the start. They may play a five-inning game this afternoon.

The man retained were:

Pitchers—Phil Spalding, Jack Toulmin, Erwin Gehrke, Nip Cardingly, Bob Puffer, Ernie Gebelein.

Catchers—Arnie Hoffman, Jim Tobin, Jack Maher, Dolph Sambrook.

First baseman—Clem Coady, Bill Ellison.

Second baseman — Captain Jack Hammond, Jack Knowlton.

Shortstops—Willie Howard, Phil Keene, Jack Roland.

Third baseman — Izzy Zarakov, Hovey Slayton.

Outfielders—Lee Todd, Art Rogers, Roger Doherty, George Bennett, George Burgess, Mal Amsden, Don Allen.

Shift Made In Varsity Crew

The first change in the Harvard varsity crew for more than ten days occurred when Coach Ed Stevens sent his first boat out on the Charles with Jack Oates in the second seat instead of Columbus Iselin, who was relegated to Gates' old position at No. 4 on the second varsity.

According to Coach Stevens, the change is only a temporary one. The first boat may return to the original seating list within the week.

The first varsity went out in its regular shell, which was launched Wednesday.

Every auto listed in the Wiispected Car Columns has been examined by the Boston Evening American's own mechanic. The Blue Certificate on the windshield of each car bears the expert's report.

JESS BARNES SHOULD WIN 20 GAMES FOR TRIBE, SAYS BANNY

By NICK FLATLEY.

St. Petersburg, Fla., March 27.—This was another of those days of partial rest, which will make up the Braves schedule most of the time for the rest of this muscle stretching expedition.

The athletes just had an everyday workout, and then prepared to welcome Tris Speaker and his Cleveland Indians, who arrive on the morrow.

"I am satisfied already," Manager Bancroft told us today, "that the Braves are at least 50 per cent. stronger than they were a year ago.

"The pitching is the thing that should help us most at the beginning of the season. It will take a few of the boys in the field a little while to get used to things, like the large league feeling and so on, but I think we have enough pitching in prospect to carry us past that spot.

"In the first place, Joes Barnes looks like a better pitcher this Spring than he ever has. He has showed stuff down here that would go big in a world series. He's hustling, although he is a real veteran, and doing more work than some of the kids. He's on the way toward winning twenty games at least, even with a club that isn't up there.

"Rube Marquard survived a bunch of tough operations better than anybody could have hoped. I wasn't the least bit surprised that the old boy would be able to pitch at all this season. But he's in pretty good shape now, looks and acts as if nothing had happened to him, and will be able to take his regular turn.

"There's a remarkable improvement in Joe Genewich, too. Joe was one of the sensations of the league two years, but slipped badly last Summer. He lost his stuff, in part, and seemed to be greatly discouraged thereby. But he's back on his feet this Spring. He's pitching the way he can, and his confidence has returned. He should be a big winning pitcher from the start of the campaign.

"Little Johnny Cooney was one of the best southpaws in the circuit in the last part of the '24 campaign. He will be that way all the time in this next race. He has been slow coming along, but he has finally arrived. We won't have to work him too often, and so he should be very valuable.

"Benton and Oeschan are two very dependable chuckers, the latter, a kid, having a great future in front of him. He's just about good enough now to pry his way on to any pitching staff. He has learned how to pitch, and is sure of himself.

"Those six pitchers give us a mighty good box assortment to start the race.

Our Braves didn't appear at all impressive against George Sisler and his St. Louis Browns, who went away from here with a 9 to 6 victory. Genevich and McNamara were touched up severely, as was Graham, who worked one inning. Bullet Joseph Bush restrained the Tribe without score for five rounds. After that, the boys hit Van Gilder hard, but couldn't catch up.

WHIRLWINDS TO TAKE ON HAVERHILL FIVE

The Boston Whirlwinds, New England basketball champions, will journey to Haverhill this evening to play the strong Haverhill Professionals at Haverhill City Hall. This is a sterling attraction for the Shoe City fans, and a tremendous crowd should turn out.

NURMI WILL COME TO BOSTON DAY BEFORE ELKS' MEET

OUTDOOR WORKOUT PLANNED

There will be no hitch in Paavo Nurmi's attempt to lower the world's record for the 1½ mile at the Elks' track carnival to be held at Mechanics Building Tuesday night.

According to word received from Hugo Quist, who handles the business affairs of the "Phantom Finn," Nurmi will arrive in the Hub Monday in order to assure his appearance at Mechanics Building the following night.

Nurmi, it is believed, will be invited to work out at Harvard Stadium and Boston College tracks.

With Joie Ray coming up direct from Houston, Texas, to oppose the Finn, one of the most brilliant races in the history of track games is promised. Jimmy Connolly of Woburn will also face the starter, while it is hoped that Lloyd Hahn B. A. A. runner, will consent to enter the race also.

Willie Ritola, Nurmi's countryman, will face a great field in the two-mile handicap.

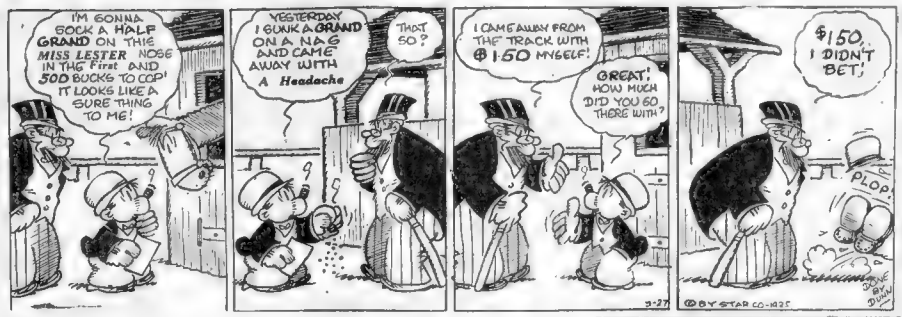
It will be Ritola's first appearance in Boston this season.

Nurmi Runs at Pittsburgh

Pittsburgh, March 27.—Paavo Nurmi and Willie Ritola will compete in the indoor games of the 107th Field Artillery at the Hunt Armory here tonight.

Moe and Joe They Get the Dough---Sometimes

Moe's selection yesterday was a little bit out of gear but still the one he picked, Miss Oakland, dropped in the third hole after battling with a field of eleven others. A big percentage of his dope nags have finished inside the money all Winter. But don't forget he had Miss Lester the day before which paid $8.60. This afternoon he has a pickle special which Andy McGovern is going to get a new supply of hair oil with. B. R. to date, $17,-747.20.



I'M GONNA SOCK A HALF GRAND ON THIS MISS LESTER NOSE IN THIS FIRST AND 500 BUCKS TO COP! IT LOOKS LIKE A SURE THING TO ME!
YESTERDAY I SUNK A GRAND ON A NAG AND CAME AWAY WITH A Headache
THAT SO?
I CAME AWAY FROM THE TRACK WITH $150 MYSELF!
GREAT! HOW MUCH DID YOU GO THERE WITH?
$150. I DIDN'T BET!

MALONEY ASKS $25,000 FOR LONDON BOUT

Jim Maloney, South Boston heavyweight, will box Soldier Phil Scott in England July provided he is guaranteed a flat sum of $25,000 and expenses for four.

This was the ultimatum which Wally Pesendien, British agent, called to Artie Latham, London promoter today. Pesendien is a former Dartmouth and Latham was also a star fall player with the New York Giants.

If these terms are acceptable to Latham Maloney, his manager, Jimmy McGrath and two sparring partners will make plans to sail for England in June.

Half of the money is to be paid before the sailing, another third on the arrival of the entourage in London, and the third part before Maloney appears in the ring. Latham plans to put the bout on at Stamford Bridge, the big soccer football grounds in London, which has a seating capacity of 100,000 persons.

LEONARD WILL BOX AGAIN TO AID VETERANS

Benny Leonard, retired lightweight champion, is going to stage a comeback.

He promised at a meeting of the Crosscup-Pishon Post, American Legion, held at the Hotel Bellevue to launch the campaign to secure $300,000, Massachusetts' quota towards the fund of $5,000,000 being raised throughout the country for disabled World War veterans, that he would again don the padded mitts to aid the monster society charity boxing carnival to be held at Braves Field to boost the fund.

Leaders from various walks of life, including Governor Fuller, Maj.-Gen. Amos A. Fries, in charge of the Chemical Warfare Service of the United States Army, were guests and speakers at the meeting of the post, composed of Boston advertising men.

The plans for the carnival call for its being sponsored by well known society leaders, with a prominent society woman, whose name has not yet been made public, in charge of the affair. It is also planned to have several champions take part in the various bouts and at least two or three of these are expected to be world's champions.

Eugene Buckley, State boxing commissioner, promised the services of the best referees in Massachusetts and the complete support of the boxing commission in aid of the carnival.

WILLS HOLDS OFF FOR ANSWER FROM DEMPSEY

New York, March 27.—Jack Dempsey has been staked to an extra week in which to answer the challenge of Harry Wills, it developed today. Still hoping to receive a favorable answer from the champion, Paddy Mullins, manager of Wills, has told Tex Rickard that he will not consider a bout with Tom Gibbons until after April 3. If he has not heard from Dempsey within that time Mullins intimated that he would be ready to discuss a Gibbons bout.

Negotiations for the Gibbons-Wills match are being conducted by Rickard in the interests of the local Milk Fund.

LUNDEN FLOPS STASIAK IN 18 MINUTES

By RINGSIDE

Alex Lunden, Swedish heavyweight wrestler, proved a sensation in winning over Stanley Stasiak, Lion of Poland, in their bout at the Grand Opera House. Lunden tossed Stasiak with a double arm lock, body scissors and back fall after eighteen minutes and thirty seconds of furious grappling.

Stasiak was knocked unconscious by the jolt his head received as he crashed to the canvas. It was ten minutes before a flock of doctors could revive Stasiak. He was then assisted from the mat and was not able to resume wrestling.

Lunden, winner over Stanislaus Zbyszko and Toots Mondt in tussles in the West in one of the outstanding men to ever show in this city, did not feel at all extended by Stasiak. He is very aggressive and has a thousand different holds.

The winning fall was a spectacular one. Lunden first clamped on a reverse double arm lock, then lifted the giant Stasiak in the air and crashed him to the canvas with a back flip.

Lunden will tackle Joe Malewicz of Utica, N. Y., in the feature bout at the Grand Opera House on Next Thursday night as part of the elimination tournament to name an opponent for Wayne (Big) Munn in his New England debut at the Boston Arena on April 16.

Lewis Fails to Toss Two Men in Hour

Strangler Lewis, former world's heavyweight champion, failed in his attempt to toss two men in an hour. He first tackled Frank Bruno, Ukranian heavyweight. Bruno gave the Strangler more opposition than he expected. It took thirty minutes to score a fall against Bruno.

The former champion showed the effects of his gruelling contest with Bruno when he faced Leone Labriola and had failed to throw the Italian at the end of two thousand different holds.

TUFTS BASEBALL MEN PRACTICE IN OPEN

Medford, March 27.—Coach Ken Nash of Tufts baseball candidates were out on the freshman field on the old campus in their first real baseball workout of the season. For three solid hours the Tufts ball tossers were put through their paces.

The team that worked out under the label of the varsity had Jimmy Kelley at first base, Ed Phillips at second, Freddy Fulton captain of last year's freshman team at s., and Barney Ringland at third. In the outfield Duke Clabault was in right, with Creasy in centre and Captain MacDonald in left.

CANNEFAX HERE TO PLAY LOOKABAUGH

Robert L. Cannefax of New York, the champion three-cushion billiard player of the world, will play Earle W. Lookabaugh in a four-game series in the national championship three-cushion billiard league today and tomorrow. They play afternoon games at the Twentieth Century Room and the evening game at the State Theatre Club.

This will be the champ's final appearance in Boston this season.

DOUBLE CHANCE WINS GRAND NATIONAL

Liverpool, England, March 27 (A.P.)—Double Chance, owned by D. Goold, won the Grand National Steeplechase, run over the Aintree course today.

W. H. Dixon's Old Tay Bridge was second and T. K. Laidlaw's Fly Mask third. Thirty-three ran.

A PARTNER OF SUNLIGHT

Cod-liver oil has aptly been called the partner of sunlight. Both out of Nature's storehouse of energy are of supreme importance to a child with rickets.

Scott's Emulsion

and sunlight have been used for decades to give strength to weak-bones. A little of Scott's Emulsion with each feeding does wonders for a malnourished child or adult.

Keep your boy or girl out in the sunlight and give them Scott's Emulsion everyday—regularly!

Scott & Bowne, Bloomfield, N. J. 3-1

Betting Even on Tunney - Greb Bout Tonight

St. Paul, Minn., March 27 (A.P.)—Two champions of the ring—Harry Greb and Gene Tunney today were all set for their ten round, no decision bout here tonight.

While neither title will be at stake except in the event of a knockout, a decisive point victory for either promised a future of big money bouts.

Outstanding of these loomed a match for Tunney, the American light heavyweight champion, with Tommy Gibbons, St. Paul heavyweight.

Speculation as to the outcome of tonight's headliner has been swinging to Greb and then to Tunney with a number of bets reported at even money.

20 RESPOND TO SOCCER CALL AT NORTHEASTERN

About twenty men responded to Coach John G. Cobb's first call for Northeastern soccer candidates and appeared on the Columbus avenue Playground for their first workout.

A Kupka was re-elected captain for this year and stars in the fullback position.

R. Scussel, R. S. Foster, Hilbert Forsberg, W. J. Urquhart, and J. Veuneis of last year's lineup will be back on the field again.

Negotiations are going forward with a number of colleges in New England for games.

NEW TECH SHELL IS CHRISTENED

Appropriate christening ceremonies marked the addition of a new four-oared shell to the equipment of the Technology oarsmen at the Tech boat house.

The shell is a gift to the crews. The donor stipulated that it should be named the "Avery H. Stanton," in honor of the manager of the Technology crews last season, and Dr. A. W. Rowe, secretary of the advisory council on athletics, officially conferred that name upon the shell after which the Tech varsity crew took a short practice row in the new craft.

The varsity lineup was as follows: Bow, Hamblet, 2, Underwood, 3, Lau 4, Cole, stroke, Parker, Latham, 7, Peterson, 8, Valentine, cox, Pearle

Hard finished worsteds wear longest

That's why we call these suits

"Service suits"

Ask for them by name

No other name could describe them as well.

Every detail is designed to stand the gaff of hard and continuous wear and yet retain that neatness of appearance which is essential to the clothes of the hustling business man.

Moderately priced, at

$35

Cut on conservative lines for conservative men—dark colors—regular pockets—full lined—three buttons—medium lapels—in fact, an all-around, conservative suit.

The why of "service suits"

Service suits don't show dirt, don't spot easily, don't wrinkle easily, but they wear like a life-long friend. That's why they can be worn day in and day out on all sorts of jobs—from polishing up the car to dictating in your office, and from spading up the garden to calling on your customers.

JUST ARRIVED—another lot of Men's "American-made" topcoats. Fuller and longer for comfort—straight lines from the shoulders for style—tans, grays and bright heathers in fancy weaves for Spring—and frankly, "a lot of coat" for less than you would expect to pay for such fabric, style and finish, $35.

Application for charge account may be made in Men's Store

FINANCE

By B. C. FORBES

This country is prospering. Business may be poor here and only fair there; this industry may have done badly in the last two months or that industry may have shown unsatisfactory results for the year. The stock market may experience a severe relapse one week, and the grain pit may be thrown into a panic the next week.

There may have been some unemployment at certain centers during the early part of the Winter, and there may be more or less unemployment at other points today and perhaps tomorrow.

But when you analyze the nation's course as a whole, you find that there has been and still is notable progress and prosperity.

* * *

The year 1924 is generally spoken of as having been only fair-to-middling. Certainly there was no boom. From most lines of business came a good deal of complaining. We heard little about breaking of records.

There was no scarcity of labor, no congestion of railroad traffic, little or no night-and-day running of plants.

* * *

Yet what was achieved in the way of adding to our wealth?

Our savings as a people made possible handsome additions to our wealth during 1924:

Houses and other buildings $5,500,000,000.

Railroad improvements $1,000,000,000.

Public utility extension and improvements $1,500,000.

Additions to manufacturing plants $1,800,000.

Roads, pavements and public improvements all or than buildings, $1,000,000,000.

Automobiles added $1,500,000

Gold and currency imported $300,000,000.

Foreign securities imported 2,000,000,000.

Total, $13,700,000,000.

After making a liberal allowance for duplications and replacements a net total of $11,000,000,000 remains.

* * *

Professor David Friday, who is recognized as an authority in compiling such figures, emphasizes that in addition to adding $10,000,000,000 to our durable wealth and buying more than $1,000,000,000 of foreign securities in a year somehow contrived during the year to pay almost $5,000,000,000 in taxes to the Federal, State and local governments, which, in turn, returned about $1,000,000,000 to the people in payment of debts and another $1,000,000,000 in pay ment of interest.

* * *

No, the United States is not going backward or standing still. The present year promises to give a good account of itself.

(Copyright, 1925, by B. C. Forbes.)

HIGHLAND TRUST CO. HAS HAD A SUCCESSFUL YEAR

A banquet was given by the Highland Trust Company of Somerville to eighty-six of its stockholders and employes at the Hotel Touraine. Dr. George C. Bradley, president of the bank, presided.

The object of the gathering was to inform the stockholders of success attained by the Highland Trust Company during 1924, which was explained in detail by Ray R. Rideout, chairman of the executive committee.

A very enjoyable entertainment was presented by Frank M. Wilder, chairman of the banquet committee, the principal feature being community singing led by former lieutenant Joseph O. Knox. Speakers of the evening were Frederick W. Cook, Secretary of State, and J. R. Fenton, Attorney-General.

State Street Notes

U. S. SMELTING has resumed dividend on common, declaring quarterly dividend of 75 cents a share. In January, 1921, 50 cents a share was paid, nothing since.

REVERE REFINERY has reduced price of refined sugar from 6.10 cents per pound to 5.90, immediate shipment, assortment with order.

BOSTON & MAINE reports surplus after interest charges and rentals in February of $42,758, comparing with deficit of $17,748 in February, 1924.

EASTERN STEAMSHIP is reported in market for two new vessels for Boston-Yarmouth service, orders for which will be given to American shipyards despite cheaper construction costs abroad.

GEORGE F. BAKER is celebrating his eighty-fifth birthday today in Aiken, S. C., having arrived there from his home in Boston in search of health.

NEW HAVEN Railroad reports surplus after charges for February of $259,953, against deficit of $49 after charges in February, 1924. In January, 1925, surplus after charges was $388,236.

WILLIAM M. WOOD, former president of American Woolen Co., will sail from New York on the Olympic March 28 for extended European tour.

AMERICAN BRASS CO., effective March 26, reduced prices of sheet brass and brass tubes ¾ cent a pound and sheet copper and bare copper wire 3/4 cent a pound.

WOODWARD HUDSON has resigned as vice president and general counsel of Boston & Maine Railroad, effective March 31.

B. & M. law department will be in charge of Allan P. MacKinnon, general solicitor.

FURTHER WEAKNESS has developed in the copper market. Electrolytic sold at 14 cents delivered Connecticut.

Points in Thursday's Market

Total sales, Jan. 1, 1925, to date: New York, 107,842,900 shares; Boston, 1,508,735 shares.

BEWARE WHEN PEDLAR CALLS WITH STOCKS

By FRANK H MELOON,
Financial Editor.

It is always a good idea to beware when a stock salesman calls unsolicited at your door or office with stocks or bonds to sell.

Good stocks or bonds are seldom peddled. We cannot too often urge readers to investigate before they buy. No bargain is so good that it will stand careful investigation.

Since we warned readers in a series of articles against bucket shops and bucketeering brokers a few weeks ago, a number have closed their doors.

* * *

Now take notice.

Others are still operating. The closing of each one's benefit in some instances. They offer stocks listed on recognized exchanges either at the quoted figure or just below it.

Beware of such offerings. The quotations may be the result of "wash sales." They probably are.

You can avoid loss by investigating.

To ask is not only the easiest but also the best way.

Remember the soliciting stock pedlar is talking about YOUR MONEY!

* * *

R. G. Dun & Co.'s Weekly Trade Review for the week ended with six regarding trade conditions in Boston:

The trade outlook has not changed materially during the week. There has been a price decline on print cloths, and the goods market is quiet. Tire fabrics, however, are more active, and ducks are moving to some extent. Hosiery is active at slightly lower prices.

Raincoat goods are selling well and fancy silks continue in good demand. Yarn prices are steady and demand is moderate. Worsted yarns are quiet. Woolens for men's wear are either slow and women's wear is not moving quite so well as expected, though a fair volume of orders is being received.

Prices in the wool market are easier, but the general tone of the market is better, as an improvement in sales is looked for at the current price level.

The hide and leather market is slow, and receipts locally are light. Price quotations have not been altered to any extent recently. Current reports show low stocks, and better conditions are expected. The weather has favored retail shopping centers where increased business is reported.

Prices of building lumber are firm

LARGEST HOLDERS OF N. E. TELEPHONE NAMED

List of twenty largest stockholders of New England Telephone, as compared with year ago, follows:

WESTERN UNION HEAD SEES LARGER EARNINGS

"Outlook for cable business this year is better than it was last year, and I expect Western Union Co. to show increased revenues from the cable business," says President Carlton.

"I expect and am positive that earnings of Western Union this year will be at least 10 per cent. better than last year."

GEN. ELECTRIC PLANS $100,000,000 PROJECT

B. H. Anderson, president of Investment Bankers of Pacific Northwest, says General Electric Co. is planning to develop tremendous power site in Columbia River rapids known as "Priest Rapids." Cultivation of barren territory and development of power site will cost approximately $100,000,000.

STREET RAILWAYS ARE GETTING MORE TRAVEL

J. N. Shanahan, president of the American Electric Railway Association, in address before New England Street Railway Club, declared that despite increased bus competition, street railways in 1924 carried about 60,000,000,000 passengers, increase of more than 1,000,000,000 over 1923

110,000,000 CUSTOMERS SERVED BY LIGGETT CHAIN

Last year Louis K. Liggett Co. retail stores served 110,000,000 customers, filled over 1,000,000 prescriptions and served 32,000,000 at soda fountains. Company operates in twenty-seven states and in 150 cities.

NEW LOWS FOR YEAR ARE SET IN NEW YORK

Recognition of selling prices against the Northern Railroad shares, later extended to the standard industrials, wiped out most of the gains made in New York stocks and sent many issues into new low grounds for the year.

U. S. Steel and Baldwin were driven down to new lows at 115¾ and 110⅝ respectively. Omaha preferred collapsed 10¼ points to 86, Chicago & Northwestern dropped 3½ to 83¾ and Northern Pacific to 60, all at new minimum quotations.

Nash Motors dropped 3 points and Baltimore & Ohio, Southern Railway, Atlantic Coast Line, Omaha common, Lackawanna, American Can, U. S. Cast Iron Pipe, Texas Chief Sulphur and St. Joseph Lead were among the many losers to sag a point or more below Thursday's closing levels.

A recovery got under way around noon but it failed to make much progress as every bulge was greeted by a large offering of stock. Call money renewed at 4 per cent. and rose to 4¼ with a heavy calling of loans reported by banks.

In Boston Stock Exchange trading Gillette Safety Razor at 61¼ was off 1⅜ and Island Creek Coal common was down 1¼ at 12¼. Old Dominion eased a point at 19½, mirroring the lowered market for the red metal.

Amoskeag Manufacturing topped Thursday's three point rise to 68 with a sale at 68½.

Boston & Maine common sold at at a new low for the year when it dropped a half-point to 15 on several offerings.

Wall Street Gossip

NET OF United Motors Corp. of America for 1924 was $304,000 after all charges, against $297,490 in 1923, $114,074 in 1922, $176,845 in 1921 and $42,392 in 1920.

EARNINGS of Gulf States Steel for first quarter of 1925 will be substantially in excess of either first or last quarter of 1924.

PHILLIPS PETROLEUM 1924 net income was $3.81 a share against $3.92 a share in 1923, after depreciation, depletion, etc., in both years.

LAST YR IN United States absorbed $5,500,000,000 corporate and government securities, fully $1,250,000,000 ahead of any previous year.

Grains Are Steady

Grains were steady in Chicago. Prices: Wheat, May 165⅛, Sept. 136⅜. Corn, May 111¼@⅝; July 115@⅛; Sept. 115@⅝.

This Day in History

THIS is the anniversary of the planting of the first colony in Maryland in 1634 by Lord Baltimore, after whom the city was named. The colony flourished from the start. The founder never visited the colony.

SHEBO

The Girl Who Became a Boy

Facing Life Fearlessly, This Girl of Today Meets Each Problem as It Comes

Continued from Page 13

play solitaire." She snatched at the envelope. "No, you don't'"

His exclamation was a soprano dog's bark. He threw the letter behind him, gripped both her arms. "Don't you understand?" he implored. "Twist him all up in you. Get him so he can't live without you. You'll never have to do a bit of collecting. That's where I come in. Me, the loving protector. He'll pay—heavy. Don't you understand?"

"Yes!" She nodded furiously. "I understand." It's skin was indeed like a very fat juicy grape's.

"Very well," he enthused. "It's a bargain. I kissed you a while ago, while you were asleep. Let's seal the bargain—with a real kiss."

She thought rapidly. She smiled. She raised her left hand and brushed his chin with her finger tips.

"You're game," he giggled delightfully. "I'll close my eyes!"

"Do!" she murmured. She tilted his chin upward with a light pressure of her fingers. Then she stooped. From her knees she brought up her clenched right hand swept it true through the space between them, struck with all her hundred and twenty pounds, right on his chin. He fell like a clothing store dummy. The same impulse which had carried the blow vaulted her over him. She snatched up the letter and sped through the door.

The roadster awaited her. She made a grab for the door handle, settled into the driver's seat and got off in a wide sweep. A thought kept flashing through her mind.

"He shwooshed like a fat grape."

Three crossings—the open road—a town. The roadster slowed and stopped at a curb. She leaned far over the side of her car and touched the lid of a post box.

Just a Nice Boy.

The fate of four people—

She sealed the letter and dropped it into the box.

"God help the next man I meet!"

Thus spoke Barbara to herself as she pressed a sore thumb against the bell button. Hannah answered. Catechising ensued in the house keeper's eyes. Before she could open her mouth, Barbara snapped:

"Never mind where I've been!"

"I was only going to——"

"Well, don't. I'm my own mistress—and nobody else is. Understand that!"

She started upstairs and almost dropped in her tracks when she caught a glimpse, in the sitting room, of a man's figure. She turned and was about to run out of the house again, when she recognized him.

It was Petrie.

"Oh!" Her relief was almost painful. "I'm glad to see you!"

Gloomy Gus advanced slowly, extended his hands.

"You really sound as though you were."

Battered Knuckles.

He looked down at the hand he was holding. Raw flesh showed at her knuckles, skinless where they had encountered the jaw of Adams. He forebore to comment. She muttered something about frostbite, and threw off her coat. He stared with melancholy surprise at her frayed, tattered gown.

"I've been motoring," she stammered.

"Alone?"

"Well——"

"Somebody walked home," he ventured. "Or was it an accident?"

"Sort of——"

"Breakdown or collision?"

She thought a moment. "Collision," she said. He asked no more questions. That was nice of him, she thought.

"I've been wondering why I haven't heard from you," she said.

"The fact is," he replied, "I wasn't awfully sure you'd——"

"Be here?" she finished for him. "I can't blame you. I've often wondered that myself. But I'm glad you called. I need aid and comfort—and food."

Hannah was lingering.

"Stop looking like the hangman's wife, Hannah," said Barbara sharply. "And tell cook to promote a rush order. Hot food—lots of it. And no sweets in it, please."

Hardiman's side de-coeur departed in a dudgeon.

"Philosophize for a few moments," said Barbara to Petrie, "on—anything, while I powder my nose."

"Do you happen to know," the tall youth asked funereally, "a five letter synonym for starvation?"

Makes Confession.

She laughed and ran upstairs. Her eyes were burning; she was trembling. She was a nincompoop. She needed sleep; she was bitterly disillusioned, heart-hungry, soul seared. She wanted to lock herself in her room and cry. Instead she primped, powdered, and when she came down to a set table a short time later, found reward for her effort in the sparkle which came into the sad eyes of Gus as he looked at her. Cook had lost no time. There were two cups of steaming broth on the table.

"Excuse me, Mr. Petrie," she said, solemn as he. She greedily attacked the broth, pausing to snatch at salted nuts and olives. Not another word from her until the fowl arrived.

Her cosmos was chaos through the iniquity of men, her life ruined by their swinish appetites, her future blasted by their loathsome desires. But she was young, and hungry. He waited patiently until she had picked dry the bones of the chicken. Over salad and cheese she drew a deep breath and said

"I sigh for all Armenians. Now that the Relief Commission has saved my life, I want to tell you I've never forgotten that I was your fiancée one New Year's Eve." He looked puzzled. "I made a thief out of you that night," she explained.

"You mean the stockings I stole from Nan—for you?"

Wiped Out.

"Yes. But that sin of theft is wiped out." She had decided there would be no use mincing words. She would call a spade a spade, and spell it out for him. "You see, you really weren't stealing anything. Those stockings belonged to me that night. I didn't know it at the moment. But they did. So did everything else in the house."

He remained silent. She had gotten to the morbid phase where she found pleasure in hurting herself.

"I'm going to tell you all about everything," she said.

She didn't spare herself. She abased herself deliberately. He listened solemnly.

"So you see, I'm a welcher," she concluded miserably. "I dance like a fool, but when the fiddler presents his bill, I renege. I'm a cheat," she moanned. "A deadbeat! A sham! A coward!"

"You're a worker," he cried, his eyes shining. "A darling! You're a miracle! You're the only female of man who has ever been able to trim J. B. Hardiman at his own game."

He arose and came to her. Her lips trembled. She choked a sob by stuffing a large chunk of pear into her mouth. He took her hand, and passed his own over the bruised knuckles.

"Poor li'l' knuckles," he sighed. He looked over his shoulder. The door was closed. Hannah was nowhere in sight. "Poor li'l' fingers! Beating against a stone wall."

Tears Glistened.

Tears glistened on her eyelashes as she frowned on the pear. He was a nice boy.

"You know," he said, "I work for J. B. Hardiman. I'm an ant under his thumb. If he pushes—no more ant. I'm talking plain talk, Barbara. I've never interfered with any of his shady affairs. But you're different." She gulped. "I knew it the night I saw you. I wanted to tell you then. I wanted to yank you out into the storm from which you came. Because I knew you'd be safer out there."

Merciful heaven! He was down on one knee. Good and bad men, they all got down on their knees. But this time it was different. It was a gesture of respect. Respect, after what she had told him. She was sorry for him.

"Wait, Hardiman's got a first mortgage on both of us." He rushed on. "Let's both wait on him. It'd be hilarious, maybe, but——" She shook her head, slowly. Barbara. I love you. I want you. What sent me here today, child, before it was too late?"

She was in his arms. She didn't struggle. She was too tired. For a moment, in his embrace, she warmed with a sense of protection. Her own arms tightened about him. Here was the embrace of a tired child. Contented, she rubbed her cheek against the roughness of his chin.

Sorry for Him.

He was a nice boy. She was sorry for him. He was going to propose to her. She would have to reject him. She would hurt him. It was always her fate to hurt people—men. There was a note of triumph in his voice now.

"I love you! I want you!" Hardiman's words. But they sounded differently. His lips were groping for her lips. He kissed her. She didn't close her lips now. Here clung. She was so tired.

"Look baby!" His voice was eager, hoarse. "We won't have to worry about J. B. He won't have to know about it. You'll simply run out on him.

I'll get you a little flat somewhere uptown in New York. We won't live together. I'll just drop in on you once in a while. He'll never find out, that way. My wife and I are separated, sweetheart, so it's O. K. from that angle. And I'm different from J. B. I'm a one-woman man, baby. Will you? Will you?"

She disengaged herself, slowly.

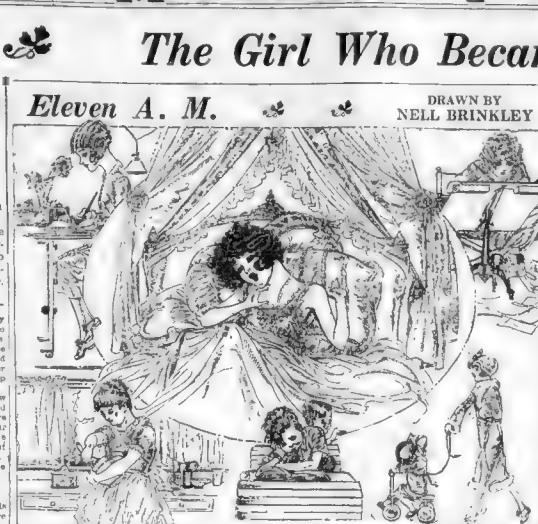
Eleven A. M.

DRAWN BY NELL BRINKLEY



THE sun's high then, a glowing ball, riding high in the blue meadows of the sky.

He is shining on houses and rivers and the sea with boats rolling on the deep dark blue, on fields and dooryards, on babies playing in sand-boxes and paddling along at a dizzy speed on their kiddie-cars with their mamas trailing them—doing the morning marketing on scissor-grinder men and grocery boys, marketing, on scissor-grinder men and grocery boys, red-brown loam, on the cross-town cars jangling along, on taxicabs careening and going whizzy. Auntie until Auntie thinks, "My lands—she never DID!"

He shines on the office floor where Floribel, all sleek and boyish, is helping to turn the wheel of progress, pounding a typewriter and planning her dress for a dance on Wednesday night. He sparkles and gleams on the dancing motes at the artist's window. She is scratching for a living and has been doing it for two hours and a half—maybe *four*. —If the paper is in a hurry for her copy

All over the big city, the parks, the narrow streets, the tree-bordered roads that lead to the country, the rows of bright little houses in the suburbs, the eleven o'clock sun shines bright.

But there are several places he can't get a peek in. If he does it is just a thin sliver of himself he can insinuate through the close-drawn velvet and lace.

Where he finds taffeta and more lace, and a yawning lady who has a fixed notion in her pretty head that it is morning now and the world is just getting up! In the scented gloom she turns and listens and hears a remote rumor, a far-humming, of the busy world turning, and the laughter and the arguing and the labor of the busy people helping to turn it.

Kuyam would say they only dream that they do, and that the pretty lady might as well lie at eleven, that when the world is dust it will make no difference then.

But I dunno!

I'm the artist that has been going it strong for several hours at eleven o'clock. And I really believe I am helping turn the world. And that it will make a great, heap-big difference, someday—somewhere.

—NELL BRINKLEY.

My Romantic Husband

A Sequel to "Ways of a Husband"

By Ann Lisle

JEANIE went off into another spasm of laughter and now I joined her. It all began to seem like a great lark to me. I felt that our adventure was vastly amusing, the sort two boarding school girls might have.

"The taxi driver mixed me all up," confessed Jeanie. "I lost track of streets as he doubled around to make sure of running up the fare to fifty cents."

I chuckled with gusto at this also. It was vastly refreshing to have Jeanie in such a wholesome carefree mood.

"Shall we go 'round the corner 'n' get a real—we risk another taxi I undid?" I asked. "The next one might reveal us another twin to our car on Forty-seventh street unless we bribe him by promising fifty cents regardless of the meter."

"These cars are getting so common," said Jeanie with a burlesque snobbish air. "I think I'll have to turn mine in and get one of those $2,000 a-fare that once belonged to royalty."

"It's a pretty little car," I said, with my mind focussing on another piece of the car and not intent on its mere beauty. "No wonder it is popular. Is yours this years model?"

"No, two years old," said Jeanie proudly. "And it stands up——"

But her words completed my mental process and made something click into place in my brain. I rushed across the sidewalk, realizing as I went that the shower was over and that my clothes were beginning to dry in the warm, clear night air.

"It's Colonel Parkinson's little car," my heart told me. "It must be. But what is Jim doing on this shabby block in this shabby neighborhood?"

"When I realized that the couple which Jeanie had been unable to unlock was Colonel Parkinson's car, my heart did a double somersault. I couldn't see why Jim should have parked that car in this shabby block on Forty-sixth street. It seemed a malicious trick of fate to bring Jeanie and me here instead of to Forty-fifth street, where we had left her car when going to the motion picture theatre.

"It's a funny coincidence," I muttered to myself. "But if the same malicious and tricky fate that sent the taxi driver to carry us through the rain and spill us off in the wrong block sends Jim along just now, he'll see Jeanie and me in our being here. He'll see only spying."

With the uneasy realization that a scene was inevitable if Jim discovered Jeanie and me in the midst of what he would regard as "sneaking," I hurried back to her and suggested it at once the rain was over we might as well go around the block and see if our little steel steed was waiting for us.

"There's a short-cut through the hotel," said Jeanie. "And there's no use in doing our way through puddles or letting the drops from the eaves spot us even worse than we're spotted now. So let's go through the building."

When we got into the hotel, Jeanie looked around with a sentimental sigh and a little giggle at herself for sighing like that.

SECRETS OF HEALTH

By Charles A. L. Reed, M. D.
Former President of the American Medical Association.

A LEADER is one who by going before, either in thought or action, blazes the way for another.

I wish you would note that I have said "another" and not "others." Of course you may now be or may become the leader of many, but when you are the leader of just one you are a leader. Your leadership is great or small according to the number whom you may lead.

And remember too that to lead one or many it is not necessary for you to keep right on leading all of them all the time. Every time you influence the thought or action of any one person you exercise the function of leadership.

If we know a truth that has been helpful to us, it becomes our duty to make that truth known to others that they, likewise, may be helped. In this way are we all and always our brother's keeper. The duty may not be evaded without consequences not only to our brother, but to ourselves.

Every age has had its own type of leadership. The knights errant, who led the crusade against the Saracens centuries ago, would cut a sorry figure today. A Torquemada who led the Inquisitions that tortured thousands at the stake would not now be tolerated for a minute. Yet each of these leaders, like all other leaders, was the product as well as the director of forces of his epoch.

What are the forces of this epoch, forces that have produced you and of which it is your duty in some measure to become the director?

If there is one thing more than another that characterizes this epoch it is recognition of the fact that you, we, all of us, are the products of forces inherent in nature.

The demand for leadership at this time, a demand that reaches every reader of my articles, is that each one small first recognize these forces as revealed in the laws of nature and that he shall teach at least some one of these laws to some one of his neighbors.

If each accepts and discharges this one act as a daily obligation, and if each other person thus approached shall reciprocate in kind, how rapid shall be the dissemination of knowledge that determines the health, happiness and welfare of society!

It is my hope and purpose by these articles to inspire you to such acts of leadership along the lines of health and success.

What can you do to carry out this plan?

You—on any given day—today—begin by reading my article.

It is bound to contain something with which you either agree or dis agree.

If you agree with it take the news to your neighbor or read the whole article to him or make it the subject of a letter to somebody.

If you do not agree with it make it a subject of inquiry or discuss on with your neighbor, or for that matter, with your physician, if you happen to meet him.

I am prompted to write this article by the remark of a friend whom I recently met at the club and who said that he read my articles daily. "I think they are very valuable," he said.

"In what way?" I asked.

"Chiefly by helping to create an atmosphere," he replied. "It's a new sort of thing that has come about—this atmosphere of health and success. It's a state of affairs in which we have come just naturally to think in terms of health, when we make health a major motive as a means to success and happiness."

Will you do your part in extending this "atmosphere" among your friends?

Will you be an active health-and success leader?

CORRECT MANNERS

Mrs. Cornelius Beeckman

DEAR MRS. BEECKMAN:

(1) I am to be maid of honor at a fashionable wedding and I am very much interested in my bouquet of flowers. I am to wear a peach-colored gown.

(2) What are the best man's expenses at such a wedding?

HARRIET.

I DO not know just what question you wish answered concerning your bouquet. The bouquet of the maid of honor is planned by the bride to carry out the effect that she has planned for the costume of the maid of honor or for the decorations of the church. The bouquet is usually sent by the bride or her family.

If you have any doubt as to what the bride wishes, talk it over with her and assure her that you wish to co-operate in every possible way with her plans.

(2) The best man has no expenses at a wedding. It is inconsistent and unreasonable that he should have any expenses. The mother and father of the bride are the hosts of the wedding, and therefore they assume the expenses of the wedding. There are a few details for which the groom pays—the license, the wedding ring, the clergyman's fee, the bride's bouquet. All these expenses are appropriate, but there is no expense that is appropriate for the best man. The position of the best man is a position of honor, not a position of financial responsibility.

CHARM OF RESERVE

By Beatrice Fairfax

Who Occupies a Unique Position in the Writing World as an Authority on Problems of Love and Marriage.

"DO you think a girl's better liked if she's reserved?" asks Betty. "How should a girl of today treat a boy of today? Do you think popularity is won by treating every man as though he were the only one you ever cared about, even if it's not so?

"Do men tire of this kind of girl more quickly than of the reserved type?"

Cora says when she expresses the opinion that a bit a reserve is greatly desirable in public and semi-public places she's told by her up-to-date friends that her ideas are "passe."

Perhaps it is a bit old fashioned in this age of frankness to talk about reserve, which may be defined as restraint due to a sense of propriety or a sense of the fitness of things.

Have you ever heard a girl talk, talk, talk, saying nothing at all, hardly pausing to take breath, until your one thought was a way to escape?

I know a girl who's exceptionally pretty—in fact, quite remarkable for beauty—who would be charming save that the moment she arrives on the scene she begins her monologue.

She tells you about her admirers—all about the men who are hopelessly in love with her and the man whose affection for the time being is returned by her.

She assures you that she can't imagine how it happened, but at the party she attended last night she found herself the belle of the ball.

"And I hadn't taken any pains to look particularly nice. I'd just thrown on my party dress in such a hurry—hardly took time to dab powder on my nose. And do you know——"

But by this time all you know is that you're planning a quick getaway. The girl lacks reserve in speech.

Mona Lisa ranks among the world's great and fascinating portraits. Why? Because of the enigma of the lady's reserve, yet inviting, smile. The Sphynx of Egypt, stirring imagination with a scene of secrets untold, holds the world enthralled.

You don't employ every bit of your muscular strength in lightly guiding your motor car along a smooth highway. You're not tempted to shout a love-tale. You restrain your love of brilliant color, sumptuous material and extreme decolettage in choosing a riding habit or traveling suit.

So reserve your depth of emotion, your whole-hearted confession of love, for THE ONE MAN who proves the right to them by winning your respect and love and asking you to be his wife. And even with THE ONE MAN reserve expression of emotion for fitting times and occasions.

THE BEST JOKE I EVER HEARD

The Boston Evening American will pay $1 for "Best Joke" published. Address "Best Joke," Boston American.

"What are your boys doin' in the city, Si?"

"Nothin'. One's a perliceman and the other two's firemen."

UNKNOWN FEATURES DISCOVERED IN SOAPINE

Tests at Brown University Prove Its Benefits to Clothes

For years, Soapine has been known as the finest soap powder made—ideal for washing clothes and for general cleaning. Experiments at Brown University have revealed wonderful features in this famous old soap powder.

It was found that Soapine actually strengthens cotton fabrics. Dr. Z. R. Bliss states, "820 tests proved that cotton fabrics soaked in Soapine increased in strength an average of 1.82%." And Soapine soaks the dirt out. Leaves the clothes snow-white.

Tests also proved that Soapine kills germs—even typhoid. For general cleaning, it removes the dangers as well as the dirt. Get a package (the genuine bears the picture of a whale) and try it, or write us for free sample. Kendall Mfg. Co., Department B, Providence, R. I.

Thousands of users sing its praises

DAILY SHORT STORY

PATSY AND THE PIPER

By Mabel McKee

THE Senator's flowers were in Patricia's room — in every corner of them, but the piper's music was in her heart. And the Senator's beautiful proposal, written in exactly the same picturesque language he used in making speeches at the assembly, was right then in the desk beside her bed.

While tomorrow the Senator was coming to the hospital to see Patricia and get her answer to his proposal.

Lulled to Sleep.

The piper's gay, lilting music had lulled her to sleep the evening before and the evening before that. She had not seen him once, had heard his music for the first time on the evening after her operation. Then she had been racked with pain, had been tormented by a terrible thirst, and by the dignified questions of all her dignified relatives.

When all she had wanted was cuddly arms and a warm heart to be held against, eyes, warm with love, and a boyish voice to whisper, "Sweetheart, sweetheart, I'd like to bear the pain for you." And while she longed for that voice and those arms, which she had never, never known, Patricia had heard the first trilling of the piper's mouth organ. It played, "I'm Lonesome For You."

Then Patricia wept hot tears, but they were of relief. She knew right then without any questions that the piper who played wasn't too young or too old but just about twenty-five years old—her own age. He might be a gypsy lad or a charity patient out on the veranda, "praying for his supper," speaking figuratively, but she knew that his were the arms for which she had hungered and that his voice would soothe her and his tongue could say as alluring love notes as his pipe played.

She had asked the nurse to find out about him. But beyond saying he was a patient, very young and handsome and shy, the nurse couldn't find out about him. "No one goes to that veranda but he," she said. "And he only plays when it's evening so nobody knows him except the head nurse and she won't say anything except that he's leaving tomorrow."

Patricia Sighed.

Patricia sighed again this beautiful Summer morning. Tonight would be her last night to hear the piper play. Tomorrow would bring the Senator and his proposal, picturesque and beautifully given in speech as in writing, but still it wouldn't be convincing. "For Senators are just born fluent," she told her mother a little later.

Her mother had come to bring her a beautiful cream negligee. It had gold threads in it, rare embroidery of the East. To bring also gold slippers and a gold band for her dusky hair. To see too that she had everything she needed to make her beautiful for the Senator's coming.

For Patricia's mother wanted the Senator for a son-in-law. One daughter had married a count who had lost the title; another an author whose books didn't sell. And she did want her baby daughter to marry a successful man who would raise her social standing still higher. And surely Senator Stillman would do that.

"He's generous and popular, "Patricia's mother was saying. "And he will be very proud of you. As his wife, you would be welcome at any party."

"He has a loving heart and a boyish manner, which means more than position," Patricia's heart sang about the piper. "As his wife, you would always be loved and loved and LOVED."

But she didn't tell her mother a word about the piper. So her mother left, telling the nurse very sharply to see that Patricia was made pretty for the next afternoon. And Patricia, when she had gone, told the nurse to be sure her window was open that afternoon so that if perchance the piper played that afternoon she could slip to the window and see him.

Hear Him at Night.

"Sister Natalia says he will not play in the daytime," the nurse repeated sharply. She had told Patricia that so very often that she was a bit provoked. "You can hear him tonight."

"Oh, nurse," Patricia caught at her hand. "Couldn't you just ask him to come up to my balcony and play for me? Just once? There's a ladder from his balcony to mine. Oh, nurse, I do want to see him just once."

For a minute the nurse hesitated. Not because she was hard hearted. But mouth organs to her meant ne'er do wells. Meant wanderers of the long road. She couldn't feel that a rich man's daughter should know a man of this kind. Yet she had heard of the Senator and knew because of his flowers he was courting her pretty patient. And though she had never seen the Senator she had often seen other Senators, dignified and cold and not at all romantic. And she loved Patricia though she had known her only two weeks.

So she suggested very softly. "You might write him a note and I'd drop it down." Patricia beamed, and the nurse continued. "I'll do it."

"Then," Patricia whispered, "I shall remember his face and the lilt of his music deep in my heart all my life."

Two tears chased down the nurse's face. Being rich, she decided wasn't the finest thing in the world. After that she dropped the note over the rail of Patricia's veranda and busied herself entertaining her patient until dusk came, and with it the lilt of the piper's pipe just outside Patricia's window.

Sat in the Dark.

Quietly she and the nurse sat in the dark while he played "Bonnie Annie Laurie," and "I Love You Truly." Then Patsy moved so that she could get the one glimse of his face. Moved and caught her breath. Gave a little cry which brought the piper to her window ledge and made him say in a rich, deep voice, "Oh, I didn't want you to know it was me, Patsy, little Patsy. I didn't dream you would understand until your note came. It's so undignified and so—"

Then the nurse fled. Being a very dignified nurse, and very discreet, she stood just outside the door to answer any call that would come. And her heart rejoiced. Thought still she didn't understand. So she kept silent until the next day when the senator, very correct in dress, came to the beautiful flower-laden room to call.

Then she told the other nurses how he had been ill from nervous breakdown and in the very room below that of the girl he loved. And he wasn't at all formal and dignified and old like most people thought him. But boyish and eager and—oh, so desirable, that she knew Miss Patsy would be the happiest person in the world.

While in the beautiful room Patsy, beautiful in her gold robe, thanked Heaven for her discovery of the piper. Thanked Heaven that while he would be known to the world as a dignified senator, he would always be her piper who had a boyish manner and a loving heart, and that she would always be loved and loved and LOVED.

Bobbie and His Pa

By William F. Kirk

PA, I sed to my dad last nite, why has kids got to have something the matter with them all the time?

What is the matter with you now, Bobbie? sed Pa.

I have got a hang nail on my finger, I sed, & it hurts sumthing fearce.

Bobbie, sed Pa, wen you are grone up, sed Pa, you will reelize that there is much worser things in this wurld than hang nails, sed Pa. Grin & bare it, Bobbie, sed Pa. Yaas is only what our mind makes it, Bobbie, sed Pa.

What non-sense, sed Ma. I notis that wen you have a pane or a ake you mind make enuff of it, Ma sed to Pa.

Who, me? sed Pa. Why, sed Pa, I do not mind pane.

You do not seem to mind pane in others, sed Ma, but wen you have it, sed Ma, that is a horse of another color, sed Ma. Poor littel Bobbie, sed Ma, let me look at that hang nail, sed Ma, & Ma looked at the hang nail & she cut part of it off with the skissors & she put a cloth around it & put sum medisin on it. Now, sed Ma, I guess it will get better.

You will spoil Bobbie, sed Pa, if you baby him like that.

I guess yure mother babyed you enuff when you were his age, sed Ma.

No sir, sed Pa. Wen I was Bobbie's age I had plenty of hang nails & bruses & burns & broken bones & grate cuts in my feet, etc., sed Pa, but I nevver went to my mother with hem.

How noabel, sed Ma. I notis that wen anything hurts you now, sed Ma, like a hed ake or a tooth ake or wen you stub yure toe, sed Ma, you mak fuss enuff.

Who, me? sed Pa. Me make a fuss?

Yes, you, sed Ma.

Then Pa dident say no moar & my hang nale was better so I dident say no moar either. You bet mothers knows how to fix up thare kids, fathers is O. K. for sum things but they aint much good at healing sorry. I will now close.

NICK NACKS

by NICK FLATLEY

THE new Attorney-General is said to be a close friend of the President's. The President, take it from Congress, likes "close" friends.

• • •

Women's Democratic League to Entertain.—Headline.

The whole party has been entertaining, very.

FABLE

There was a woman who liked to do her own washing on Monday mornings.

Dora Dumb thinks that the Braves are in the peace league.

• • •

Maiden violinist claims she was shocked by telephone. Probably got the right number.

• • •

APPLESAUCE

I haven't bought a thing for my radio set for more than a year.

Except for gas I haven't spent a cent on this car since I bought it.

My wife never runs up bills. If she hasn't the cash she doesn't buy.

My husband smokes two cheap cigars a day and saves the money he used to spend.

I'd rather eat at the boarding house than go out to some hotel for dinner.

I didn't want an Easter gown, but hubby insisted.

• • •

Bootleggers, disguised as rabbis, selling Jewish wine, says dispatch. Wolves in rabbis' clothing, so to speak.

• • •

LITTLE SKETCHES

This is Annie Scandal, who has discovered how to keep her husband at home nights. "Just keep a set of scales in the house," she says. "Then the man can always get a weigh without going out. I cannot understand why women want their husbands home, but human nature is funny. Ha, ha."

Annie will next explain how to put the cat out, with an uppercut to the chin.

FINISH THIS ONE

Oh, if you only have one quart left, I don't think I'll take any more than just an eye-opener.

He chokes himself on coffee
In the rush to catch the train,
For he is young, efficient;
And a worker, might and main.
He gets into the office,
Puts his feet up on a chair,
And talks and talks, of golf and shoes.
He has no business there.

SHORT STORY

Jones and his wife, pictured above, had just returned from their Southern trip. They found that the maid had opened up the house, that there was ice in the chest and food, and the furnace going, and everything. They could hardly believe it, only the strength garnered in the genial sunshine seeing them past the shock. Mrs. Jones opened Mr. Jones' trunk. She took out a suit, and went through the pockets, as wives will. She uttered a loud shriek and fell in among the dirty collars.

"What was the matter?" asked Jones, after he had revived her.

"I found twenty dollars left in your pocket after THAT trip," she replied.

Then Jones fainted.

See you later.

MEDBURY SAYS—

By John P. Medbury

THE book of etiquette is a wonderful publication, but most of its readers are too lazy to become ladies and gentlemen.

POLITENESS strengthens your sociality, but weakens you physically.

A MAN so seldom gets a seat on a street car that when he does get one he hates to get up and give it to a lady.

IT'S polite to stand up, but it's more comfortable to be rude and sit down.

ONE guy wore out seven hats taking them off in elevators.

NOW he leaves his hat at home and when a lady gets in the elevator he tips his toupee.

IT isn't every man who's gentleman enough to take his hair off to a lady.

A MAN is supposed to raise his cap when he meets his wife on the street. This is silly. If she's married to him she knows he's not a gentleman, so why try to fool her.

OF course, even a husband should be well mannered and never fight with his wife in public. What have they got a home for?

ETIQUETTE is silly. A man pays five thousand dollars for a lot of nice furniture, and then when the company comes he's got to let them occupy the best chairs.

HE foots all the bills and yet he has to sit on the piano stool.

ONE guy paid three hundred dollars for a comfortable morris chair and hasn't sat in it yet.

JUST because he's a gentleman the guests get all the best seats in the parlor.

IF he has a lot of company at once, the chances are he has to stand up in a corner.

CORNERS are all right, but it's hard to find a soft one.

HUNDREDS of men get corns right in their own living room.

IN order to be comfortable they have to wear over-stuffed shoes.

SOME guests aren't satisfied with taking your best easy chair, they also borrow your bed room slippers.

POLITENESS in the home is a marvelous thing, but it's carrying etiquette too far when a man has to go out visiting in order to get a few comforts.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

FAMOUS FIRSTS

By Mark Stuyvesant

JUST let any two little boys get into a fight on the street and before you can say: "Jack Robinson!" every man and boy within sight will drop whatever he happens to be doing and rush up to watch the proceedings. A ring forms around them and partisans of both sides shout words of encouragement and advice, now reminding one who seems to be taking unfair advantage now breaking up a clinch, maintaining order and the rules of fair play.

The origin of the prize-fight is shrouded in legend, but from the beginning of the eighteenth century one figure stands out, that of Jim Figg who used to travel about the country, appearing at fairs where he exhibited his skill with various weapons, the foils, cudgel, sword and naked fists. He is the first recorded champion of the ring in England and hence of the world. Historians recognize him as the father of pugilism.

The occasion for assuming the title of champion was the opening of his amphitheatre in Tottenham Court road, 1719. It was here that he engaged to teach anyone the art of self-defense, along strictly scientific lines.

But it was his successor, Jack Broughton, who is looked upon as the founder of fighting as a fine art. Up to this time it had been merely a matter of give and take, despite Figg's high sounding pretensions, Broughton actually drew up a code of rules, which did away with the old-time murderous contests. These rules remained in force until 1838. The story of Broughton's last fight is a very interesting one.

His opponent was a Norfolk butcher. In the tenth round, the butcher made a spring and planted two blows between Broughton's eyes. The champion blinded by the blows groped his way about the ring, while the Duke of Cumberland, his chief backer, cried out: "Why, damme, Broughton, you're beat, man! What are you about man? Don't lose the fight!" It is little wonder the Duke did not want his man to lose the fight for he had wagered 10,000 pounds on him.

But poor Broughton could only shout back: "I'm not beat, your Royal Highness. I can't see my man. Only let me see my man and I'll win yet!" But Broughton had to be led away and his opponent won the title.

Until 1854 England had a monopoly on prizefights. Being the English champion was synonymous with being champion of the world. But about this time, America began to take an interest in the game. Finally John C. Heenan, the Benicia Boy, was sent over to England to challenge the British champion. The fight was a draw,

THE TRUTH ABOUT HONEY.

By Foxy Grandpa

"FOXY GRANDA," asked Bobby, wrinkling up his forehead like he does when he is puzzled, "you say that the queen bee rules the hive. Well, then, what happens when the queen grubs hatch out and there are some extra queens?"

"I'll tell you," I answered. "When queen grubs are hatched there is the greatest commotion in the hive."

"Does the queen-bee get mad?" asked Bobby.

"The queen-bee will never allow a second queen-bee to live in the hive if she can help it," I replied.

"When there is a new batch of queens hatched out—somebody has to leave. This causes swarming."

"Oh," said Bobby. "We've seen that."

"Yes," I continued. "Either the old queen or the new one gathers all of the bees that she can muster. They fly all together in the regular ball which you have seen them make when they are swarming. Off they go to start a new city. It is then they build a new hive and make it their home."

"What happens to the queens that are left over?" asked Bobby.

"They are out of luck," I laughed. "The defeated candidates are put to death."

"Can queen-bees sting?" inquired Bobby. "I know the drones can't."

"Yes," I replied. "The queens and the workers have little pockets which are filled with poison. This is connected with their stings—which are hollow. When they find something that they think could harm them—like a little boy—"

"Or a rabbit," piped up Bunny.

"They shoot this poison out through the hollow stinger into the wound in the flesh of their victim which they have made with its needle-like point."

"Needle is right," agreed Bunny, twitching his whiskers.

"They have other pockets, too, haven't they, Foxy Grandpa?" asked Bobby.

"Yes," I answered. "The ones you are interested in most—honey pockets, or honey-bags."

"I thought bees drank the honey and that it went right into their stomachs—like it does into mine!"

"That's where you're wrong," I explained.

"Most people think that is what happens. But I'll tell you what really happens. When the bees fly about and pole their little noses into the blooms of flowers they are not gathering honey. Honey does not grow in flowers. Honey is made by the bees.

"The bees gather the juices from the flowers and swallow it. It does not go into their stomachs as many people think. It goes into their honey-bags. There it remains for quite a while and when it is poured out, it is the delicious honey which you like so much."

"Some would taste good, right now," murmured Bobby.

"I believe he's going to be a Nurmi when he grows up," I chuckled as I marveled at the speed the little boy made.

"He certainly will if they have a jar of honey at the finishing line," added Bunny.

SLOGANS

For a Judge—"I'll try anything once."

For Congress—"Much ado about nothing."

For the morning-after-the-night, before chap—"Two heads are better than one."

For a race track gambler—"A horse, a horse, my kingdom for a horse."

For the hedcarrier—"I began life at the bottom of the ladder."

For the mother with a young baby—"Sleep, no more, we kill, all stomachs—let us sleep no more, we kill, all stomachs—let us sleep no more tonight."

BLISSFUL MOMENTS

The night the baby forgot to wake up and cry.

When somebody hollered just as you were about to put the lighted end of your cigar in your mouth.

When the cat knocked over your pet vase and it didn't break.

The day the man behind the soda fountain let you mix your own drink.

When your girl asks you what time it is and you have a chance to show her your new gold watch.

When you realize it's almost a whole year before you have to think of buying Christmas presents again.

When the bulbs that Mom had been nursing all Winter finally bloomed.

When your girl tells you she knows somebody who's going to send you a Valentine.

When the spot on the dress that you thought you'd have to send to the dry cleaner's comes out with plain soap and water.

SOME THINK

That Rome was founded by Romeo.

That it's the proper thing to eat pie with a pie knife.

That they can ride in an elevator up the ladder of success.

That a spinster is a woman who is still old fashioned enough to use a spinning wheel.

That a bucket shop is a store where they sell pails.

That all apple sauce is made from apples.

That if he doesn't wear a broad brimmed hat he isn't from Texas.

That a Fascisti is an automobile imported from Spain.

That the person who cuts materials for dresses is a materialist.

That anybody's credit is good with a trust company.

That you can't sit down when you have a standing invitation.

Three Minute Journeys

By Temple Manning

IN the tropical land of Manila, where gaiety is the keynote of existence among the well-to-do, the first night in November is a spectacular and gala affair, even for the color-minded natives. That date is All Souls' Night, which is a glorious and prolonged fiesta.

Men, women and children begin their journey toward the communal burial ground. In the two-wheeled vehicles called "carromatos" they go; each small cab piled high with food, flowers, chairs and people. Down the long dark road they move, with only the light of little candles on the vehicles, to show the way.

Just before the excited revellers reach the cemetery, a veritable blaze of light greets them.

Gay lights, gaudily dressed natives and flowers galore, transform the City of the Dead into a modern Vanity Fair. Mausoleums, highly decorated and brilliantly illuminated, dot the resting places of the wealthy ones.

The more humble graves, however, are also scenes of feasting and joyousness. The entire family grandmother, baby and all, gather around the mound, beneath which lie the bones of the dear, dead departed.

Perhaps a flattering portrait of the deceased further adorns the grave, which is covered with flowers and lighted with candles.

Music is in the air, and if by any chance a poor family's burying ground adjoins that of a more fortunate neighbor, there is nothing to keep the poor ones from enjoying the music of the other man's orchestra.

In a fashionable hotel, a few miles away, where the families of army officers find much of their evening's entertainment, other orchestras are playing for dancers. But though the hotel music may be more harmonious, it could never be more impressive, more inspiring than that of the small orchestras, out in the cemetery, on All Souls' Night.

From November to February, in Manila, the perfect weeks glide by. The gay season begins formally with St. Andrew's Ball at Thanksgiving and then extends hilariously on toward Easter.

Even the ancient walled city, the original town of "Maynila," has been desecrated by a golf course and other intrusions of modern civilization.

This sombre corner, with its high walls and forbidding aspect, was one time long ago the stronghold of a Mohammedan Prince. Its narrow streets, crumbling walls, dilapidated churches, cling tenaciously to existence along with the ramparts, the old cannons and runways of the once-famous Fort Santiago.

Some of the old buildings are still the dwelling places of the native Filipinos, who will come creeping back, at dawn, from the celebration of All Souls' Night. Thus life continues, gay or drab, according to the color and circumstances of Manila's lazy inhabitants.

Rub It On At Bed-Time

For Deep Chest Colds

All colds should be treated with vapors, for vapors alone can carry the medication DIRECTLY to the air passages and lungs.

Vicks is a "vapor" treatment in salve form. For deep chest cold's you first apply hot wet towels over throat and chest to open the pores, then massage briskly with Vicks for 5 minutes, spread on thickly and cover with a flannel cloth.

Vicks not only penetrates like a poultice or plaster, but the ingredients, vaporized by the body heat, are inhaled all night long. This double action usually checks the most stubborn cold overnight.

TRADITIONAL SERVICES FOR PASSOVER

Menorah Institute to Open Ceremonies Next Thursday With Orthodox Rites

Special Passover services, in keeping with orthodox Judaism, will be held for the younger Jewish element of the city under the direction of Young Israel of Greater Boston, On Thursday and Friday, April 9 and 10, the first two important days and on Wednesday and Thursday of the following week, the last two days, religious rites of this holiday will be ceremoniously upheld at the Menorah Institute, Elm Hill avenue, Roxbury.

Services will begin promptly at nine in the morning with a young man, whose name has not yet been announced, officiating as cantor. He will sing the ritual chants of Passover with all the formalities and keeping of the New Era Hymnal itself. In place of the usual rabbinical sermons, addresses on current and appropriate topics in English will be made by Harry Rubin, Max Aelman and Harry Fein.

These Passover commemorations have been especially arranged for and by the young men and women of the community in order to perpetuate the traditional ideals of orthodox Judaism. To inculcate them with the true meaning of "Passach" these special services are held, the Biblical passages in Hebrew, the explanation in English.

Last year the idea aroused keen interest and it is expected that this year the junior element will turn out in great numbers.

A series of Palestine radio programs have been arranged for by the Keren Hayesod in response to the many demands for information about the Holy Land. By special arrangement and co-operation with the Union of Orthodox Jewish Congregation of which Rabbi Herbert S. Goldstein is president and Rabbi Samuel M. Machtel, executive secretary, Keren Hayesod announces these talks.

On April 1, Dr. Moses Romm will speak on "A Concrete Answer to a Challenge. It will be broadcast through Station WHN at eight o'clock.

On April 22, Dr. David De Sola Pool will broadcast at the same time and from the same station. His subject will be announced later.

* * *

Under the auspices of Temple Beth El, a bridge and whist will be held in the auditorium of the new Beth El Hebrew School on Glenway street, Dorchester, next Monday.

WEALTHY JAPANESE GIVES FORTUNE TO FISHERIES

Tokio, March 28 (A.P.)—On condition that he be given an income of 13,000 yen a year for life, Kumataro Ishigaki has given his entire fortune of about 1,600,000 yen to the Marine Products Society to be used in the encouragement of fisheries. Mr. Ishigaki is 67 years of age and amassed his fortune in the fishing industry. This is said to be the only case in Japan of an entire fortune of such size to be given away in its owner's lifetime.

WILL DESTROY $60,000 DAM FOR SCIENCE

Los Angeles, March 27 (A.P.)—An experimental dam, to be built at a cost of $60,000, only to be destroyed to test the latest engineering theories in relation to the constant angle arch type, will be constructed soon on Stevenson Creek, o tributary of the San Joaquin river, north of here. Funds for the work have been provided jointly by Los Angeles county and private interests.

The object of the experiment is to obtain data expected to prove a great value in the construction of dams in the Los Angeles county flood control program, in which approximately $35,000,000 will be spent. On several of these projects the use of the constant angle arch type is anticipated.

It is the theory of many engineers that the constant angle arch type will permit the use of thinner construction than has been tried heretofore. If true, this would reduce materially the cost of dams.

The experimental dam will be 140 feet long and 80 feet high when the first tests are made. Special instruments will be inserted in the concrete to test stresses, deflections and temperature changes as the load of water i increased.

After this information is obtained, the height of the arch will be run up to 100 feet. The water then will be allowed to rise to the point at which the dam may be pushed out of position.

A good, clean newspaper with the largest home-delivered circulation in New England.

BOSTON EVENING AMERICAN

Buy New England goods — support New England industries — best in the world.

A Cabinet of His Own Choice

President Coolidge is taking his own time in surrounding himself with a Cabinet of his own choice to supplant the one that he inherited from his predecessor.

To prefer to make haste slowly in a matter so intimately affecting the future of his administration is characteristic of the man in the White House today.

It is too much to expect that he will not make mistakes, too much to say that he has not made them.

But the wise man profits by his mistakes because he learns from them, and therefore tries not to make the same mistake twice.

New Englanders may remember that as Governor of Massachusetts, Mr. Coolidge generally filled a vacancy before the chronic candidates for office found out there was a vacancy to be filled.

Only by adhering to this rule can a President safeguard his own freedom of selection of the men upon whom he is to rely for counsel against the inordinate demands of organized place hunters.

A newly elected President is certainly entitled to the assistance that only a Cabinet of his own choice can give him —his own constitutional choice, that is, a Cabinet of his own selection subject to the advice and consent of the Senate.

This is why new faces will probably appear in the Cabinet before many months have gone by.

Edith Gould's Story

It Interests a Great Many Girls, Rich and Poor

Mrs. Edith Gould Wainwright, next to the youngest daughter of the late George J. Gould, and granddaughter of Jay Gould, who left more than one hundred millions, is writing daily for Boston Evening American readers, telling about her life and that of her family and friends.

Edith Gould at the Age of Three

Young women, both those with a great deal of money and those that have NOT a great deal of money, should read these articles.

They will learn many things, and these are the MOST IMPORTANT OF THEM.

They will learn that MONEY alone doesn't make happiness.

They will learn that REAL happiness, the greatest happiness, has nothing to do WITH MONEY.

They will learn presently, from Edith Gould Wainwright's own story, that the most exciting and the happiest times she ever knew in all her life was when she ran away with the fine young man that she liked and married. She rented a little flat up several flights of stairs, did her own housework, including the cooking, and she was happy. ANY girl can do that; you don't need a grandfather with one hundred millions to do it.

Day by day Edith Gould will tell the readers of the Boston Evening American about her childhood, her birth on board of her father's big yacht, about the baby dress that cost more than she and her husband could afford to spend in the first six weeks of their married life.

Read Edith Gould's articles in the Boston Evening American every day and tell your friends to read them. They give a picture of American life among those that have millions.

They will also give comfort to those that HAVEN'T got millions, and that probably never will have.

Happiness is WITHIN, not without. It is not locked up in a bank account.

"Cures for Consumption"

He who advertises a CURE for consumption or cancer is an ignoramus, or he is lying, or BOTH.

Consumption CAN be cured, and IS cured, in thousands of cases. But it is NOT CURED BY MEDICINE, by any advertised remedy.

Consumption is cured by WISE LIVING, careful diet, by FRESH AIR, by abundance of nourishing foods, by LONG SLEEP and by the necessary amount and right kind of exercise, prescribed by a good doctor.

Many die of consumption, not because their lungs are small or defective, but because the lungs are big, and the heart is too weak to keep them properly washed out and protected by an abundant blood supply. The consumptive is often killed by insufficient heart energy.

Consumption is diminishing, but that is no reason for ceasing to combat it, no reason for believing that any false quack "consumption cure" has done the work.

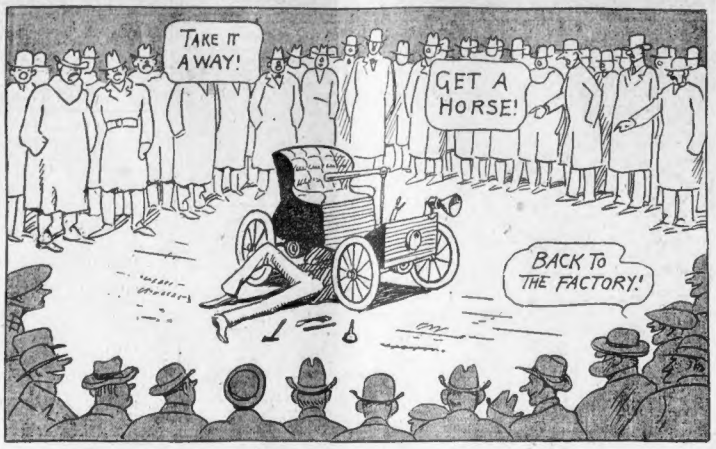
In its early stages, when it is EXTERNAL, cancer within easy reach of the surgeon's knife, can be cured.

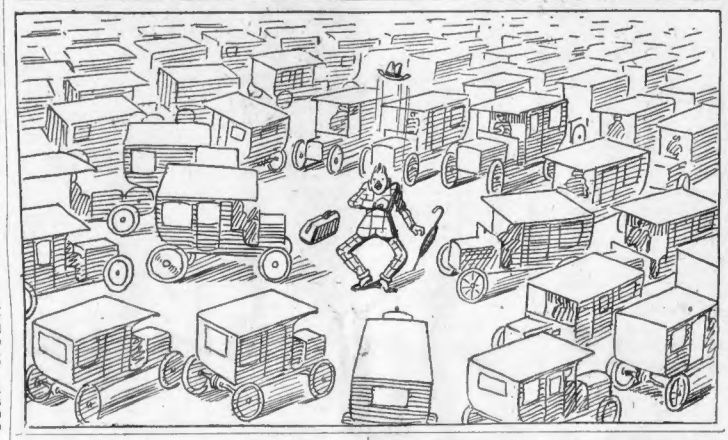
Do not neglect small abnormal growths on any part of the body, lumps or growths perceptible here beneath the skin. A lump or a hardening should be attended to AT ONCE.

His First Trouble

Or When Trouble Started

By T. E. Powers





A WIFE'S MEDITATIONS

By HELEN ROWLAND

THIS is the magic time of year, when—

* * *

If the clouds in the sky remind a man of the way the hair fluffs around a pretty girl's face, and the scent in the breeze reminds him of hyacinths and black narcissus, he's a lover.

* * *

But, if the clouds remind him that the lawn needs watering and the breeze reminds him that he forgot to fix the shutter on the gable window, he's a husband.

* * *

If the street jonquils remind him to send HER a box of violets, and the street organ starts him humming the "Love Nest," he's a lover.

* * *

But if the jonquils remind him that he was going to buy some garden seed and the organ reminds him that he must "fix" that squeak in the old car," he's a husband.

* * *

If the confectioner's window inspires him to go and get a box of her favorite chocolates, and a jeweler's window makes him stop and meditate speculatively on the price of diamonds, he's a lover.

* * *

But, if the confectioner's window reminds him that he was told to bring home some buns for dinner, and a jeweler's display makes him wonder cynically where they FIND the "full-guys" to pay for such things, he's a husband.

* * *

If the ripple of the fountain in the park makes him think of lost springs and moonlight on the water, he's a lover—but if the ripple of the fountain reminds him that he forgot to fix the faucet in the bathroom, he's a husband.

* * *

If a window full of pink feminine frills makes his eye brighten and holds his furtive glance for a moment, and the sight of a pretty pair of ankles will take him a block out of his way, he's a bachelor.

* * *

But if a window full of pink frills reminds him merely that his wife's charge account is overdue, and a pair of pretty ankles arouses only mild speculations, he's a married man.

* * *

If a provocative glance under a saucy hat will make him forget what he started out to do, he's a free soul.

* * *

But, if a provocative glance rouses his vanity, makes him feel sorry for himself, and at the same time makes him rejoice that his wife was nowhere around to see it, he is safely tied-to-the-mast.

* * *

If an April shower makes him think of June roses, and the salmon in the butcher's case reminds him of trout streams and fishing tackle, he's a single-footer.

* * *

But, if a shower merely reminds him that his wife "TOLD him to take his umbrella" and the salmon merely reminds him that this is Friday and he may expect fish for dinner—

* * *

Well, then—ah then—he is merely what is LEFT of a bachelor, after the nerve has been extracted, and the imagination cocooned—a HUSBAND!

Helen Rowland

WORDS OF THE WISE MEN

Character produces an enrichment that cannot be bought.

* * *

Does time drag? Then become too busy to look at the clock.

* * *

The winds and waves are always on the side of the ablest navigators.

* * *

Nature paints the best part of the picture, carves the best part of the statue, builds the best part of the house, and speaks the best part of the oration. —Emerson.

* * *

Moral principles require reasoning and discourse to discover the certainty of their truths. They lie not open as natural characters engraven on the mind.

* * *

Man is not the creature of circumstances. Circumstances are the creatures of man. —Disraeli.

THE HELPING HAND

Letters Not Answered Personally. No Attention Paid to Telephone Calls or Anonymous Letters. No Names Published.

Health Failing

Helping Hand Editor:

I am in ill health through a nervous breakdown, and not strong enough to go to work yet. I wonder if any of your readers have a Summer camp or cottage in the country or woods, preferably north of Boston near the trains, as my brother has to commute to town daily, they would be willing to let me have for about $20 to $25 a month, from May 1 to October. I can't pay more and the reason I am writing to you is everybody wants half the season's rent in advance, and we are not in a position to pay this out at once. I assure them the place will be well taken care of. There are three adults, and it will give me a chance to regain my health. BOB.

Needs Long Crib

Helping Hand Editor:

I am the mother of a two-year-old baby with tubercular spinal trouble. She will be in a plaster paris shell for years and it is necessary that she be moved from place to place during the day. The crib she is now in can't be moved through a door, and her small crib is too short for her. I would like to hear from someone who has a long, narrow crib or bed on wheels. Someone might have such a thing stored away. I can exchange for a small crib. I can't afford to buy a new one. MRS. O. D.

Others In Need

Mrs. C. is greatly in need of wash suits, overalls, etc., for boys three and five years of age, and suit for husband, size 38.

Little Annie asks for clothes and shoes for herself, age thirteen, two sisters eight and five, and brother eleven, also baby twenty months old. Mother wears size 44. Mother goes out washing. Also is someone had an old scooter, velocipede or auto for her brother, it would make him happy.

Mrs. A. E., husband out of work all Winter, appeals for clothing for herself, size 38, shoes4, and for two children two and eight months old.

Mrs. M. H. E. needs clothing for herself, size 40, shoes 4, and for girl fourteen and boy eleven. Husband without work.

Mrs. R., mother of six, needs shoes, sizes 8 and 12, for boys four and eight years old, and suit, size 11. Girl ten needs shoes 1½. She needs a Spring coat.

Ida G. writes, boys eight, five, four, two and one are destitute for clothes. Can make over old clothes.

Mrs. Stella B., Somerville, wants boy home, please get in touch with editor.

Two motherless girls, 8 and 1, are greatly in need of clothing.

Mrs. M. L. S. is in need of an old dresser, cannot afford to buy new one, also would appreciate clothing for girl 8 and boy 4, and for herself, size 38.

Family in Cambridge very much in need. Father in the insane asylum. Won't some kind readers donate clothing to boys, ages 3, 5, 6 and 8, girl 10, and to the mother?

Mrs. G. T. H., widow, needs coat, other clothes and shoes, size 8½ or 9, for her 4-year-old boy. Has been offered work out of town, but cannot go until child has something to wear.

THE RHYMING OPTIMIST

By Aline Michaelis

OH, way of high endeavor that lures with lofty peaks and thrills with beauty ever the restless heart which seeks, afar I glimpse your wonder and take the upward way that parts the clouds asunder and leads to fuller day. And though mishaps befall me, though many burdens drag and many beauties call me to make my footsteps lag, still slowly up I travel along the path of peace, for I would fain unravel the skein that holds reinse. For I am tired of sighing for false and foolish things, and tired of caged birds flying and beating futile wings; of all deceit and playing with honor's shining name, of careless footsteps straying along the ways of shame, and so high endeavor, and do and not to dream, my heart aspires forever, to be and not to seem.

FUNCTION OF REAL FRIENDSHIP

By DR. FRANK CRANE

THE chief value of a friend is that he understands.

There is something about true friendship that enables one to appreciate and encourage the best in his fellows.

It was said of Wordsworth and his sister and Coleridge that they were three bodies with a single soul. For many years Wordsworth turned out excellent material because Coleridge appreciated him. When he was an old man his work was recognized and he was made poet laureate. But he did not do much good work after that. The people applauded him and he got the fame that was coming to him, but the friendship has ceased to work.

It is said of Mahomet that he would not have composed the Koran and stuck to his Revelations if his sister had not believed in him.

The confident belief and trust of some person is necessary for us. It is a rock to lean against.

This is the best function of a good wife, to appreciate her husband. More divorces have occurred because one's good qualities have not been appreciated than for any other reason.

One good thing about love is that it is the best appreciator in the world. It can understand and see that which is good. It is the magnet that draws forth the good.

Many wives continually nag their husbands and call attention to their little defects, but do not seem to see their sterling qualities. When a wife can see past the defects to the real qualities of a man, she becomes a true helpmate. She is more than a wife; she is a friend.

There is something about friendship that makes the world a sociable place. To know that someone understands us and appreciates us gives us a comfortable and homey feeling.

There are few people who are able to carry out any idea or to stand for any principles, alone. They need someone to lean upon, someone who believes in them and appreciates them. For we all have our periods of depression and doubt.

Even John the Baptist was afflicted with a spirit of doubt when he sent word to the Christ asking if he were really the Messiah.

Jesus had his twelve apostles about him. He needed the consolation and help of appreciation. And every man that does anything in the world needs someone to stand by him and recognize the value of what he is doing.

Without this we are liable to be overcome in our moments of depression. We are liable to lose faith in ourselves and in our destiny.

SUN IS CAMPFIRE OF THE EARTH

By Garrett P. Serviss.

Noted Astronomer and Writer on Scientific Topics of Popular Interest.

THE earth is a campers' tent and the sun is its campfire. Around spreads the cold night of space. At intervals the fire blazes up with uncommon energy and the temperature in the tent becomes more genial.

Even the habitual chilly ones then feel the blood warmed in their veins, and rub their hands with pleasure, while their more feverish companions find the air too sultry, and move to cooler corners.

But presently the flames faint, and as they die down the cold night wind creeps round the tent until the warmest-blooded begin to shiver and wish for more logs on the fire.

But, unfortunately the solar fire is beyond the reach of those who depend upon its radiation. Its variations are independent of all human interference or control, and, there is no way in which another comparable source of heat can be substituted.

Put into allegorical form, this seems to be the substance of the claim made by the Clayton theory of the dependence of the earth's weather upon the variability of the sun's radiation, a claim that certainly has very strong observational evidence to support it.

It is true that the solar variations are not large—only from 3 to 5 per cent, ordinarily—but on the other hand the earth's weather is astonishingly delicate and sensitive in its adjustments to controlling conditions, so that, as Professor Charles G. Abbot says, "very moderate changes in the sun's heat, without affecting the average temperature of the world as a whole may yet make a difference between prosperity and failure in some localities here on earth."

It is only about ten years since H. H. Clayton began the studies which, it is now claimed, "show plainly that major changes of barometer and temperature in the United States come from solar variations."

Of course, if the solar fluctuation of radiant energy amounted to a very large percentage, say 20 or more—which would be small compared with that of some of the variable stars—the result would be felt simultaneously all over the world. But when it is only from 3 to 5 per cent. local conditions may mask its effects, rendering them insensible except where circumstances tend to accentuate them.

Only meteorologists have an adequate conception of the unsymmetric state of the atmosphere. It is an "accidented" as the surface of the earth on which it rests.

It has its barometric mountains, valleys, troughs, tablelands and lowlands, some of which are singularly persistent in location, while most shift hither and yon, sweeping invisibly, but by no means insensibly, over the inhabitants of the ground. It is a viewless topography, composed of transparent gases and filled with vapors which, when changes of temperature condense or rarify them, appear and disappear like sketchy ghosts.

One of the most important effects of the solar radiation is the creation of winds and air currents. Influenced by the rotation of the globe, the greater currents are shaped into cyclones and anti-cyclones, and from these storms and fair weather are born.

They constitute a world-wide system of atmospheric circulation, surrounding the globe, and shifting northward, now southward, according as Summer or Winter prevails in one hemisphere or the other.

It is no wonder that the effects of fluctuations of the solar radiation, amounting to only 5 per cent. at the most, are difficult to detect in detail when distributed through so changeable a medium.

Directly opposite conclusions may be drawn from observations made at different stations. But the resources of the Smithsonian Institution, persistently applied, have not only rendered it possible to detect variations of so little as 1 per cent. in the solar radiation, but to give promise that their effects may hereafter become predictable.

An interesting announcement is that just now the solar radiation, in defect for several years, is on the upward grade.

ONCE-OVERS

PROGRESS ISN'T MADE BY RESTING ON PAST ACHIEVEMENTS

Don't bank altogether on your past achievements.

You cannot continue indefinitely to make progress on a reputation some years ago acquired. In competition it will not carry you far.

It is what you do now that counts.

On account of your past achievements you may feel so well established that you do not exert yourself as you did when you were making your record.

Recently one of the world's greatest runners appeared in an athletic meet and it was announced that he would endeavor to break a former record. He failed, however, by many seconds to equal a former record.

Those who attended the meet were disappointed for they expected him to hang up a new record.

They were interested in what he would do, and not in what he had done.

The past serves only to indicate how much better the future should be.

What you do now, not what you HAVE done, is what counts.
